Select the statement below that best describes your role at the school indicated above. *

I am the principal/school leader.

I am one of multiple principals/school leaders, and I have coordinated with the other leaders to submit one survey response on behalf of the school.

Indicator Selection

Four indicators will be selected on an annual basis per school. Those submissions must represent a minimum of two domains and a maximum of one may be documentation-based. In addition, selections should represent all of the grades in a school. For example, a K-8 school should select at least one indicator that represents each grade level. They could select TA3, E1, S4, and WL4 because all of the grades in the school are represented in the indicators selected.

Ensure that your selections:

- Total 4 indicators
- Represent 2 domains
- Minimum of 3 data based
- Represent all of the grade levels you serve

The selections below have conditions built in to ensure that you select indicators that represent two domains and that three of them are data based. It is up to your school leader and school leadership team to select indicators that represent all grade levels you offer at your school. Not selecting indicators that represent all grade levels will result in a 0 for one of the four indicators.

Your First Indicator Selection

Your Second Indicator Selection

Your Third Indicator Selection

Your Fourth Indicator Selection

You must select at least THREE indicators that are data based.

You must select indicators from a minimum of TWO domains.
