

1. Introduction

Students in grades 3 through high school may take practice tests in English language arts, mathematics, science, and social studies to help prepare them for the LEAP 2025 statewide tests administered later in the school year. The practice tests allow students to do the following:

- become familiar with the testing format
- practice using the online tools for computer-based tests
- respond to some of the types of questions they may find on the LEAP 2025 tests

Paper-based practice tests (PBT) for grades 3 and 4 are available in the [Practice Test Library](#) of the Department’s website or in [DRC INSIGHT Portal](#). Computer-based practice tests (CBT) for grades 3 through high school are administered through the Data Recognition Corporation (DRC) INSIGHT testing platform.

2. Practice Test Guidance

Teachers should use the [English language arts](#), [mathematics](#), [science](#), and [social studies](#) Practice Test Guidance documents posted in the [Practice Test Library](#) to better understand how the practice tests can be used to support instructional goals. The guidance documents include the following sections:

- How to Use and Not to Use
- Interpreting and Using Results
- General Practice Test Structure
- Item Types
- Accessing the Practice Tests
- Administering and Scoring Practice Tests, and Accessing Reports
- Scoring Activity
- Annotated Student Responses
- Resources

Teachers may access the online practice tests by copying and pasting the teacher access link into Google Chrome: <https://wbte.drcedirect.com/LA/#portal/la/510848/ott/8/username/password/false>. Below are the user names by content area and grade level. **The password for all content areas, grades, and courses is teach2025.**

3. Test Administration

The [DRC INSIGHT Portal User Guide](#) provides directions on how to prepare for the online administration of the practice tests. The following tasks need to be completed in [DRC INSIGHT Portal](#) prior to administering the practice tests:

- Transfer and add students
- Assign and view accommodations
- Create test sessions
- Generate and print test tickets
- Review resources in [DRC INSIGHT Portal](#)

4. Scoring

General Scoring Information

The CBT are scored using a combination of automated and teacher scoring. Selected-response items (e.g., multiple choice, multiple select, and evidence-based), technology-enhanced items, and fill-in-the-blank responses are automatically scored by the online system; however, responses to constructed- and extended- response items are scored by teachers. The [DRC INSIGHT Portal User Guide](#) explains how teachers access and use the Educator Scoring application in [DRC INSIGHT Portal](#) to score student responses. Prior to using the Educator Scoring application, teachers should retrieve the scoring rubrics from the answer key documents, found in the [Practice Test Library](#) or [DRC INSIGHT Portal](#) under Documents in the General Information tab. All items on the PBT are scored by teachers using the PBT answer keys.

Answer Keys

The grade-level and content area answer keys are available in [DRC INSIGHT Portal](#) and in the [Practice Test Library](#). The answer keys include answers to all item types, alignment information, and rubrics for scoring the constructed- and extended-response items. Direct links to the practice test answer keys are in the table below.

5. Reporting

Reports will generate in DRC INSIGHT Portal within 24 hours of the completion of at least one test session. This allows teachers and schools to use reports to support the instructional use of practice tests detailed in the Practice Test Guidance documents posted in the [Practice Test Library](#). Only one test session within a practice test needs to be completed for reports to generate. Additionally, educator scoring does not need to be completed for reports to generate. Reports will refresh nightly after the initial posting to reflect any changes in test session completion and/or educator scoring.

The Report Delivery Menu of the [DRC INSIGHT Portal User Guide](#) explains how to access the CBT reports in [DRC INSIGHT Portal](#) and gives an explanation of the reports provided. There are no student or test session summary reports for practice tests. The following reports are available for practice test assessments:

- Test Session Response Map
- Student Response Map
- Data .csv File
