## **Purpose**

The *Directions for Practice Test Administration* (DPTA) provides the Test Administrator (TA) of the LEAP Connect assessments with specific instructions for the administration of this particular test. Each DPTA provides the exact wording of the items to be used by the TA, the materials needed in the preparation of the test, and guidelines for how to present the items to the student.

## **Materials**

Materials needed for the LEAP Connect Test Administration:

1. *Test Administration Manual* (TAM)
2. *Directions for Practice Test Administration* (DPTA)
3. *Procedures for Assessing Students Who Are Visually Impaired, Deaf, or Deaf-Blind*
4. *Grade 3 ELA Practice Test Reference Materials and Writing Stimuli*

## **Directions**

1. **Know and follow all directions for test administration** provided in the TAM, DPTA, and *Procedures for Assessing Students Who Are Visually Impaired, Deaf, or Deaf-Blind*.
2. Be familiar with and utilize the Text to Speech (TTS) as appropriate. The DRC INSIGHT Assessment System includes TTS that will read aloud the text of directions, items, and answer options and will also read aloud standardized descriptive statements for tables, charts, graphs, and timelines.
  - a. This text is read to all students using a consistent rate of reading and tone of voice. If a student wishes to have any or all of the text repeated, click on the Starting Points button (between the Stop and Play/Pause buttons). Then use the mouse to select the starting point (blue circle) just before the text that needs to be repeated.
  - b. To change the volume or speed of the TTS or turn off the follow-along, select the Options button at the top of the screen, then select Audio Settings and adjust as desired.
  - c. If the TTS will not be used, the TA can turn off the volume and the follow-along using the Audio Settings. The TA must read the directions, items, answer option text, and graphic descriptions **exactly as written** using a consistent rate of reading and tone of voice.
3. Be familiar with and utilize the Alternative Text as appropriate. Alternative Text is bracketed and written in italics. Alternative Text is included for students who are blind or have a visual impairment and require graphics to be described. This Alternative Text includes descriptive statements for tables, charts, graphs, and any graphics necessary for appropriate interaction with the items to be described.

## **Guidelines**

1. **Guiding a student response must be deliberately avoided.** Such cueing might include voice, rate of reading, positioning of correct response option, or body language that would suggest a preference or indicate a correct response. To ensure fidelity of test administration, the TA must use a consistent voice, rate of reading, positioning of response options, and body language during oral presentation.
2. If the TTS is not used, the TA may read the directions, item, response options, and graphic descriptions. All text must be read to the students **exactly as written**, (i.e., no paraphrasing or variation of speed to emphasize words in ways that provide hints as to correct or incorrect responses).
3. The Test Administrator (TA) may use statements to **encourage** the student to respond (e.g., “only one more to go,” “just five minutes until a break,” “keep working,” “I like the way you are listening and following directions”), but **does not** indicate either the correct or incorrect response.

## **Guidance on Printed Materials**

*ELA Practice Test Reference Materials and Writing Stimuli* include required graphics and the answer options for each test item. The DPTA will prompt the TA when the required graphics are to be presented to the student. The answer options are included so they can be copied and used as needed (e.g., eye-gaze boards). *ELA Practice Test Reference Materials and Writing Stimuli* are distributed by the School Test Coordinator (STC).

The LEAP Connect ELA Practice Assessment includes one constructed-response writing item at each grade level. Writing Stimuli are provided for the constructed-response item. Writing Stimuli are distributed by the STC. Review the item and prepare materials as needed **prior to the administration** of the constructed-response writing item.

## **Selected-Response Items**

Selected-response items are presented in the following order:

- Item stimulus (which may include a passage, passage part, picture, graphic, or other illustration)
- Item question
- Answer options (which are indicated by radio buttons and presented vertically)

Students independently select a response from the options. Being mindful that students will respond in a variety of ways (e.g., with words, gestures, eye gaze, communication devices, assistive technology, etc.), TAs can enter responses on behalf of the student.

Ensure that Augmentative and Alternative Communication (AAC) and Assistive Technology (AT) used routinely for instruction are available to support the student in communicating responses.

### ***Reading Selected-Response Item Example***

The LEAP Connect assessment items reflect grade-level content presented at varying degrees of complexity. The following item example illustrates a selected-response item and components which support the ways that students with a wide range of learner characteristics are presented with test items. The following item example does not reflect ALL content that is assessed in each grade-level content area and does not represent every degree of complexity.

## **Reading Item Example**

### **Directions**

**We are going to read informational text about a writer named Mark Twain. He lived a long time ago and wrote books. After we read, you will be asked a question about this writer. Listen for what the author believes about Mark Twain.**

## **The Life and Works of Mark Twain**

Mark Twain was an American writer.

Twain wrote many books. One of his best known books is The Adventures of Tom Sawyer. The books were set in Missouri. This is where Twain lived.

Twain first began by writing articles for his brother's newspaper. He became well-known after he wrote a funny short story.

*[For students with visual impairment, read “This is a picture of a sailboat.”]*

Twain traveled to many places. He visited libraries around the world. Twain became famous.

Mark Twain has inspired many people. He is seen as a great American author.

**Item 1**

Directions for TA that this is a two-part item.

TTS or TA reads item directions.

*This is the first item of a two-part item.*

We read about a writer named Mark Twain. We are going to read part of the text again. Then you will be asked a question. Listen for details that tell you that Mark Twain liked to travel.

*[For students with visual impairment, read "This is a picture of a sailboat."]*

TTS or TA reads item text.

TA reads the alternative text for students with visual impairment to describe the picture.

Twain traveled to many places. He visited libraries around the world. Twain became famous.

TTS or TA reads question text.

Which sentence tells that Mark Twain liked to travel?

*Point to each answer option as the Text to Speech (TTS) or Test Administrator (TA) reads each option.*

*[For students with visual impairment, read "A. This is a picture of a pad of paper with a drawing on it."]*

Directions for TA to point to each answer option as the TTS or TA reads each option.

TTS or TA reads answer options.

A. He drew pictures.

[For students with visual impairment, read “B. This is a picture of famous people at a dinner party.”]

B. He became famous.

[For students with visual impairment, read “C. This is a picture of men riding on top of and in a covered wagon pulled by horses.”]

TA asks student if they would like to read this part again. If the student says yes, the TA either activates the starting point for the TTS to read the passage part or reads the passage part again.

C. He traveled to many places.

Would you like to read this part again before you answer the question?

### **Constructed-Response Item**

The constructed-response (CR) item requires the student to produce a response to a writing prompt (i.e., expressive language). The item is presented to the student in a standardized, scripted sequence of steps that include statements read by the TTS and TA and directions for the presentation of grade- and prompt-specific materials that need to be prepared as appropriate for each student. The Student Response Template is identified by a card number for each CR item in the Writing Stimuli. The student may use the Student Response Template located in the *ELA Reference Materials and Writing Stimuli* to write a response to the CR item, but **the final product is entered into the DRC INSIGHT Assessment System**. Please note that if the TA makes the determination that a student is capable of entering an online response utilizing a keyboard, the student is not required to use the Student Response Template and may type and edit the response in the response spaces in the DRC INSIGHT Assessment System.

A TA needs to determine the way in which a student will create a constructed response in writing. The student can use the Student Response Template to write a response or

can enter an online response utilizing a keyboard. The following statements are provided to assist TAs in determining whether to allow the student to enter an online response into the DRC INSIGHT Assessment System.

The CR writing prompt is administered in the following manner:

1. The student is presented with the writing task and the text type (e.g., story or essay) to be produced.
2. The student is then presented with a model of the text type.
3. The TA presents the steps of the writing task as planning, writing, revising, and editing a response, using a script that includes references to materials to present to the student to support the construction of a response.
4. First, the student organizes ideas related to the topic. Next, the student writes a response using the provided Student Response Template or types into the DRC INSIGHT Assessment System. Then the student is allowed to revise and edit the response. Last, the TA reads aloud the finished product to the student.
5. If the student types the response into the DRC INSIGHT Assessment System, the student may not utilize the computer's browser functions during CR item administration.
6. If the student did not type the response into the DRC INSIGHT Assessment System, the TA must transcribe the student response into the DRC INSIGHT Assessment System in the appropriate boxes. **The TA must also type any necessary annotations in the text box beneath the item. (See *Procedures for Annotation* and *Procedures for Transcription* below.)**

### ***Procedures for Annotation of Writing CR Item***

To ensure student's written product is easily interpreted during scoring (e.g., use of inventive spelling or symbolic expressions), the TA **must** provide annotations in the DRC INSIGHT Assessment System in the text box beneath the item labeled "*For Test Administrator use if annotations are necessary.*" The annotation is to be written by the TA and must not alter the intent of the student's original response; rather annotation ensures that the response is interpretable and meaningful to a scorer.

After the student has finished composing their written responses, the TA will read the student's response and do the following:

- Add annotation to describe or clarify the intended meaning of pictures, symbols, or objects included in the student's original response.
- Add annotation to clarify incorrect spelling as needed to ensure correct interpretation.
- Make annotations in the proper location (the text box beneath the item) to distinguish from the student's original response.
- If a student types an uninterpretable word (e.g., inventive spelling), type the intended word in parentheses directly following the uninterpretable word in the DRC INSIGHT Assessment System to clarify the student wording. DO NOT remove student wording or phrasing.
- Not include comments or explanations of the student's response except if needed for clarification.
- Provide an opportunity for the student to review and modify what has been annotated.
- The annotation box is **not** intended for TA feedback about the CR item or the LEAP Connect assessments. TAs may send any feedback or questions to [assessment@la.gov](mailto:assessment@la.gov).

### ***Procedures for Transcription of Writing CR Item***

If a student did not type the response into the DRC INSIGHT Assessment System, the TA must transcribe the student's response including any annotations into the response area(s) for that item.

The TA will:

- Enter the response after completing the administration of the CR item.
- Enter the entire response exactly as the student has written it and annotate as appropriate (see *Procedures for Annotation of Writing CR Item*).
- Not revise, edit, or alter the student's response in any way, unless directed to do so by the student.
- Not provide feedback regarding any aspect of the student's response unless directed to do so by the student.

If the student is able to provide a response to the system independently, the TA is encouraged to allow the student to do so. In this case, the TA is not required to complete the task of transcription.

After the TA has transcribed and provided annotations for a constructed-response item, the item is considered completed. When all transcriptions and annotations are completed for the CR item, the session is completed and the test must be submitted.

### ***Use of a Scribe for Writing CR Item***

The TA may decide before testing begins, based on student need, that the use of a scribe is the best way to capture the student's response for the writing CR item. This process should be practiced with the student prior to testing during regular classroom instruction in order to ensure that the student and the TA understand the process. The process of scribing should not be a barrier for the student. If a scribe is utilized, the scribe must: 1) transcribe the work into the online system and 2) annotate. The role of scribe can be completed by either a TA or a district employee under the direction of a qualified, trained TA. For the ELA test only, **an accommodation for scribe or transcription is not required to be included in the student's IEP.**

The scribe will:

- Begin the session with an introduction, explain the process and direct the student to indicate when to use capitalization and punctuation when needed, and must allow the student to revise and edit what the scribe has written.
- Write exactly what the student communicated on paper or directly into the DRC INSIGHT Assessment System.
- Correctly spell all words.
- Capitalize words or punctuate text only when indicated by the student.
- Make student-requested changes, even if incorrect.
- Allow the student to edit for punctuation, capitalization, or other edits as described in the DPTA.
- Orally confirm meaning of homonyms and commonly used homophones (e.g., than and then; to, two, and too; there, their, and they're).

### ***Augmentative and Alternative Communication Guidelines for Writing***

Ensure that AAC and AT that are used routinely for instruction are available to support the student in communicating answer responses. Allow the student to complete the tasks using their preferred method of communication (e.g., pointing, eye gaze, assistive technology, oral response, sign language).

**Please refer to the *LEAP Connect Test Administration Manual, Appendix B*, which provides detailed methods and protocols for using AAC systems and devices to respond to the writing CR items.**

## Directions

We are going to read a story about two brothers. After we read, you will be asked some questions about the central idea.

### Working Together for Mom

Freddy and Jerry are brothers. Freddy is older than Jerry. They share a room. They have bunk beds. Jerry sleeps on the top bunk, and Freddy sleeps on the bottom bunk.

Freddy and Jerry argue all the time. They do not like to share with each other. But Mother's Day is in one week. They want to do something nice for their mom. Their cousin, Leo, tells them they will have to get along to find a good gift for her. Freddy tells Leo, "We have no money." Jerry says, "And Freddy is mean."

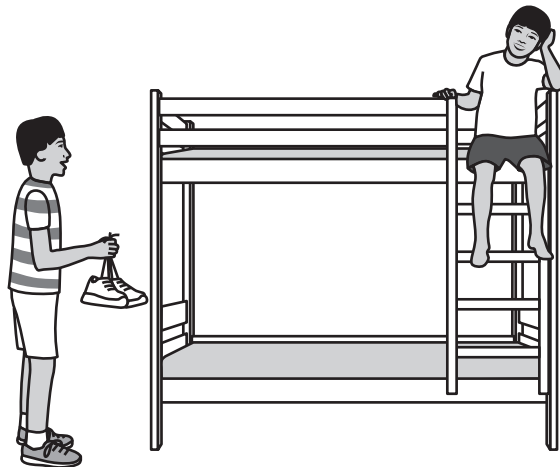

Leo looks around their house and says, “Why don’t you clean up your room for your mom?”

The boys look at each other and smile. Their mom is always asking them to clean their room. This would be a nice surprise for her.

Freddy starts picking up clothes and toys. Jerry climbs up to his bed and lays down. Freddy knows that they will not get their room clean if Jerry does not help.

“Jerry, can you pick up the books and shoes?” Freddy asks nicely.

Jerry looks down at him and thinks about it. He knows that the room will not get clean if they do not work together. This time Freddy was not mean. He asked for Jerry’s help in a nice way. Jerry jumps down and begins putting books on the shelf. He slides shoes under the bed. Freddy puts clothes in the laundry basket. They both put their toys away.

Freddy and Jerry do not like to clean their room. But working together has made the **task** easier. Their mom will be so happy when she sees what they did.
