SCHOOL HEALTH SERVICE PROVIDER *of the Year*

2024 SCHOOL HEALTH SERVICE PROVIDER OF THE YEAR FINALISTS

Rochelle Gauthier

LCSW-BACS; Jefferson Parish

Behavioral Health

Rochelle serves as the coordinator of Autism and behavior supports. She also works in a mobile crisis response unit providing support providing first responder mental health care. Her work in education has focused on educating the whole child through the implementation of trauma-informed practices including providing professional development to educators, increased mental health services to students and assisting school/system leaders in shifting discipline practices from punitive to restorative models.

Wendy Domangue

OTD, MS, LOTR; St. Tammany Parish

Occupational Therapist

Wendy is the lead occupational therapist for St. Tammany Parish Schools and focuses on increasing cohesion and understanding of school based services. She has worked in schools for over twenty years, providing treatment, evaluation, and leadership support. She has worked closely with members of her district's pupil appraisal team to develop a dysgraphia assessment that is part of the district-wide universal dyslexia screener and to create handwriting interventions that can support responses to intervention with all students.

Diane Hulin

PT; Lafayette Parish

Physical Therapy

Diane has been a physical therapist for 38 years and has been committed to facilitating her student's active participation in their education. Her goal is for every one of her students to have a happy, purposeful life with the ability to flourish in their relationships with their family, friends, and community.

Jacqueline Shilo-Gradnigo

M.Ed., L-CCC-SLP; St. Landry Parish

Speech Language Pathology

Jacqueline has worked for 30 years as an SLP and prides herself on being genuine, understanding, motivated, blessed and optimistic. Her professional priorities in St Landry Parish include but are not limited to the following: ensuring equal access to educational opportunities for students with speech and language disorders; increasing her own knowledge of current research and therapy ideas in the field of speech-language pathology; and collaboration with others to ensure speech services are integrated into the school's health care program.
