

High-Quality Professional Learning Packages

October 2024

Theory of Action

Students make meaningful growth when:

- they use a high-quality curriculum each day;
- teachers have initial and ongoing professional learning that helps them use that curriculum effectively; and
- teachers use data from a limited number of standards-aligned, non-summative assessments that measure how well students meet the outcomes of the high-quality curriculum.

Effective High-Quality Professional Learning

Effective implementation of high-quality instructional materials (HQIM) tremendously impacts student learning. To ensure effective HQIM implementation, ongoing high-quality professional learning (HQPL) for educators at every level must be in place.

High-Quality Professional Learning: High-Quality Professional Learning (HQPL) is led by a knowledgeable facilitator using a cycle of learning over a period of time and includes ongoing collaboration and coaching, and transfer into classrooms. HQPL begins with student and teacher academic needs and supports the implementation of high-quality instructional materials, leading to increased student outcomes.

The LDOE is working in collaboration with professional learning partners to offer professional learning packages to support systems in engaging in the highest quality professional learning and ensure access to comprehensive ongoing professional learning.

About the Professional Learning Packages

Each of the professional learning partners featured in our Instructional Materials Professional Learning Partner Guide was invited to create a professional learning package that fits within one of three categories for systems to select from:

- Adoption and Initial Implementation
- Ongoing Support; and
- Establishing and Sustaining Professional Learning Structures

Each of the packages includes teacher support as well as leader-specific support/coaching. Information about each package is shown below.

Adoption and Initial Implementation Package

This professional learning package prepares teachers and leaders for the **first year** of curriculum adoption and implementation. The foundational training ensures they are well-equipped to implement the new curriculum effectively.

Ongoing Support Package

This professional learning package is for schools and systems in their **second or third year** of implementation. Its purpose is to help educators sustain and enhance implementation over time. This package aims to assist teachers and leaders in adapting and improving their instructional practices.

Establishing and Sustaining Professional Learning Structures Package

This package is for systems in their **fourth year of implementation and beyond**. This package focuses on establishing and sustaining effective professional learning structures that promote continuous growth, collaboration, and improvement. The package includes guidance and coaching to carefully plan and execute professional learning, ensuring educators receive relevant, impactful, ongoing, and job-embedded professional learning.

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>Attuned will partner with schools and systems in their fourth year of implementation and beyond of the CKLA curriculum in grades K-5, focusing on establishing and sustaining effective professional learning structures that promote continuous growth, collaboration, and improvement. The package includes guidance and coaching to carefully plan and execute professional learning, ensuring educators receive relevant, impactful, ongoing, and job-embedded professional learning. Furthermore, Attuned will build the capacity of leaders to ensure that school and classroom-level change is happening in literacy by building the technical skills, and adaptive leadership skills of literacy/humanities leader(s) to champion the school’s literacy vision, oversee the implementation of the CKLA curriculum, and improve overall coherence around literacy. Specifically, Attuned’s support across role types will include:</p>	<p>\$29,880 per school</p>

- Five bi-monthly meetings with the project leads to manage the project, which includes:
 - Identifying deliverables, roles, and key dates
 - Aligning on school-level goals and plans for professional development, progress monitoring, and walkthroughs
 - Summarizing and debriefing each round of progress monitoring data
 - Surfacing and problem-solving potential roadblocks during implementation
 - Providing ongoing thought partnership
- Designing and co-facilitating three meetings of the school’s Steering Committee (“SteerCo”) or instructional leadership team (e.g. principal, assistant principal, mentor teacher, coaches, etc.) in order to:
 - Build shared understanding and ownership of the state of literacy curriculum implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Make adjustments to literacy implementation in order to accelerate the impact
 - Celebrate wins, identify lessons learned, and prepare to communicate with the broader school community
 - Refresh the literacy priorities for the next year, including the generation of key deliverables and initiative measures
- Conducting three rounds of literacy walkthroughs to collect data on CKLA implementation to:
 - Identify professional learning needs and school-specific supports
 - Monitor progress toward measures of success
 - Provide on-site debrief and action planning with school staff members
- Design and co-facilitate up to 2 hours of professional learning, audience TBD (e.g., school leaders, coaches, teachers, etc) to:
 - Celebrate wins, identify lessons learned, and ensure shared visibility into the progress of literacy implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Facilitate purposeful reflection and action planning at the learning community and school level to drive impact in response to data

*Cost may incur additional fees if more than said number of participants

Ongoing Support Package

Package Description and Services	Pricing Information
<p>This package aims to assist teachers and leaders in adapting and improving their instructional practices and implementing their curriculum effectively for diverse learners. As a result of the support in this package:</p> <ul style="list-style-type: none"> ● School and system conditions for effective curriculum implementation improve ● Schools reach level 3 of the Curriculum Implementation Scale <p>ACTIVITIES</p>	<p>\$30,000 per school</p>

- **Three co-planning meetings** with system leaders to ensure the summer learning experience aligns with system instructional priorities and addresses unique system context
- **Three-day summer learning experience** with teachers and school leaders
 - **Teachers (two days)**
 - Leveraging curriculum tools and components to accelerate learning, including scaffolding, meeting the needs of diverse learners through strategic data collection (identifying strong sources of evidence, understanding student work analysis protocols, and responding to data through the use of curricular supports)
 - **Leaders (one day)**
 - Understanding key data collection embedded in curriculum structure and curricular tools to accelerate learning and leveraging them in a continuous improvement cycle
 - Develop a school-specific theory of action for implementation, including measures of success, key leader actions, data cycles, and opportunities to document progress and action steps
- **Two-day virtual new teacher catch-up** learning experience (mix of synchronous and asynchronous)
 - Deep dive on the components and structure of the new curriculum and assessment with an emphasis on the content and standards in the first two units or modules
 - Unit and lesson internalization protocols
- **Monthly school-based coaching** with Instructional Leadership Teams (ILT) at up to 10 schools (alternating in-person and virtual)
 - Internalizing, norming around, and prioritizing implementation indicators based on school needs/context
 - Giving effective curriculum- and content-specific feedback
 - Track school-specific theory of action for implementation, including measures of success, key leader actions, and opportunities to document progress and action steps
 - Revisit school-specific theory of action for implementation, including measures of success, key leader actions, data cycles, and opportunities to document progress and action steps
- **Assess system conditions and recommend action steps**
 - Administer Leading Educators' system conditions assessment - which tracks the presence of the conditions needed for effective curriculum implementation and professional learning in schools - at the beginning of the school year and the end of the school year
 - Present a report with the findings from the assessment and recommendations for priority conditions to address along with suggested actions
- **Progress monitoring**

<ul style="list-style-type: none"> ○ Three school walkthroughs with a focus on practicing identifying strengths and challenges with implementation and generating evidence-based feedback ○ Three half-day virtual retreats with system and school leaders to formally pull up on progress and troubleshoot challenges through the synthesis of coaching, participant feedback, and school walkthrough data <p>DELIVERABLES</p> <ul style="list-style-type: none"> ● Introductory training on curriculum for new teachers (district can use in future years) ● School-specific theories of action for implementation with progress monitoring protocols ● Systems conditions report and recommendations <p>INVESTMENT</p> <p>The above activities, which include the dedicated capacity and expertise of a Leading Educators project team as well as operational expenses, total \$30,000 per school for one content area (e.g. ELA, math, or science). Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>Attuned will partner with schools and systems in their fourth year of implementation and beyond of EL Education curriculum in grades K-8, focusing on establishing and sustaining effective professional learning structures that promote continuous growth, collaboration, and improvement. This package includes the capacity building of leaders to ensure that school and classroom level change is happening in literacy by building the technical skills, and adaptive leadership skills of literacy/humanities leader(s) to champion the school’s literacy vision, oversee the ongoing implementation of the EL Education curriculum, and improve overall coherence around literacy. Specifically, Attuned’s support across role types will include:</p> <ul style="list-style-type: none"> ● Five bi-monthly meetings with the project leads to manage the project, which includes: 	<p>\$29,880 per school</p>

- Identifying deliverables, roles, and key dates
- Aligning school-level goals and plans for professional development, progress monitoring, and walkthroughs
- Summarizing and debriefing each round of progress monitoring data
- Surfacing and problem-solving potential roadblocks during implementation
- Providing ongoing thought partnership
- Designing and co-facilitating three meetings of the school’s Steering Committee (“SteerCo”) or instructional leadership team (e.g. principal, assistant principal, mentor teacher, coaches, etc.) in order to:
 - Build shared understanding and ownership of the state of literacy curriculum implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Make adjustments to literacy implementation in order to accelerate the impact
 - Celebrate wins, identify lessons learned, and prepare to communicate with the broader school community
 - Refresh the literacy priorities for the next year, including the generation of key deliverables and initiative measures
- Conducting three rounds of literacy walkthroughs to collect data on EL Education implementation to:
 - Identify professional learning needs and school-specific supports
 - Monitor progress toward measures of success
 - Provide on-site debrief and action planning with school staff members
- Design and co-facilitate up to 2 hours of professional learning, audience TBD (e.g., school leaders, coaches, teachers, etc) to:
 - Celebrate wins, identify lessons learned, and ensure shared visibility into the progress of literacy implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Facilitate purposeful reflection and action planning at the learning community and school level to drive impact in response to data

<p>In-person Leader Workshop: Launching EL Education for Leaders</p> <ul style="list-style-type: none">6 hours, 25 leaders <p>The EL Education curriculum for grades K-8 is designed to support rigorous language and literacy teaching and learning through its deep, intentional design, standards-based alignment, and engaging real-world context. During this workshop, participants will focus on the curriculum design principles, structure, and components through interactive learning experiences. After building awareness and understanding of the curriculum, leaders will build a plan to support curriculum implementation at their schools and districts.</p> <p>In-Person Module Launch Workshop: Launching the EL Education K-8 Modules</p> <ul style="list-style-type: none">6 hours, 25 teachers and leaders <p>In this In-Person workshop, educators develop an understanding of the EL Curriculum design and approach to literacy instruction. They define how modules are structured and how this supports students' literacy development. Educators also work to understand the specific components of each lesson and how they build over time to ensure success. By experiencing different components of the curriculum, educators develop and internalize how lessons are structured, and have time to plan for intentional instruction.</p> <p>In-Person Skills Launch Workshop: Launching the EL Education Skills Block</p> <ul style="list-style-type: none">6 hours, 25 teachers and leaders <p>During this workshop, participants define the Skills Block's structure and how it supports systematic phonics development. They also understand the specific components of each lesson and how they are differentiated to ensure success over time. By experiencing different components of Skills Block, participants develop and internalize how lessons are structured and have time to plan for intentional and differentiated instruction.</p> <p>In-Person Module Planning Workshop: Going Deeper with Strategic Planning for Imagine Learning EL Education</p>	\$28,900 per school

Modules

- 6 hours 25 teachers and leaders

The EL Education curriculum is robust and complex with many moving parts. As educators gain experience teaching the curriculum, they are better prepared to dig deeper into instructional practices and how to support students through strategic planning. During this workshop, educators engage in concrete activities that develop and deepen their understanding of the components of modules and how to strategically plan for lessons, units, and modules based on assessment data that they bring. This workshop focuses on applying what educators already understand to go deeper into intentional planning and support the success of students.

Virtual Workshop for Modules

- 2 hours, 25 teachers and leaders

A classroom culture built on trust, safety, challenge, and joy is an essential foundation for learning with EL Education. Teachers can explicitly plan to include students in the learning process, creating space for reflection and growth and encouraging perseverance through challenges. In this Module Planning session, participants plan for a culture of grappling and accountable learning that fosters engagement in a lesson.

Virtual Workshop for Modules: Leveraging Curriculum Supports for All Learners in Modules

- 2 hours, 25 teachers and leaders

The EL Curriculum provides support and resources for differentiated instruction, which allows teachers to support students with disabilities and those who may need academic extension. In this workshop, participants build an understanding of how to leverage curriculum resources to engage and support all learners. Participants explore foundational understandings, learner attributes, and approaches and then have an opportunity to plan for an upcoming lesson.

1:1 Virtual Coaching: Imagine Learning EL Education Coaching for Leaders

- 30 min per session, 3-month coaching cycle, 1 district and school leader

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, focusing on promoting effective teaching practices and enhancing leadership capabilities. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each leader. This leadership coaching will focus on supporting educators with the implementation of the Imagine Learning EL Education Curriculum.

Learning Walks: Learning Walk for Imagine Learning EL Education Curriculum: Modules and/or Skills

- 6 hours, 5 district and school leaders

BetterLesson believes that school and district leaders are, first and foremost, instructional leaders investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving the learning of the EL Education Curriculum. We help build leaders' capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning and effectiveness of the implementation of the Imagine Learning EL Education Curriculum, and then create a plan for addressing

professional learning needs.

Adoption Phase Learning Walks are typically implemented in the Fall, Winter, and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need

Ongoing Support Package

Package Description and Services	Pricing Information
<p>Virtual Workshop for Modules: Using Close Reading and Text-Dependent Questioning</p> <ul style="list-style-type: none">• 2 hours, 25 teachers and leaders <p>Close Reading is a process of careful analytical reading. It involves repeated reading, text-based discussion, and written analysis of a complex text. In this workshop, participants define the characteristics of Close Reading, including text-dependent questioning. They then explore Close Reading examples in lessons and have an opportunity to plan for an upcoming Close Reading lesson.</p> <p>Virtual Workshop for Modules: Using Protocols and Routines to Support All Learners</p> <ul style="list-style-type: none">• 2 hours, 25 teachers and leaders <p>Protocols and Routines are an important feature of the EL Curriculum because they are one of the best ways to engage all students in discussion, inquiry, critical thinking, and sophisticated communication. Protocols and Routines consist of agreed-upon, detailed guidelines for reading, recording, discussing, or reporting that ensure equal participation and accountability in learning for all students. In this workshop, participants have an opportunity to understand how Protocols and Routines are used to support all learners, explore Protocols and Routines, and engage in planning for the implementation of a Protocol or Routine in an upcoming lesson.</p> <p>Virtual Workshop for Modules: Leveraging Language and Conversation</p> <ul style="list-style-type: none">• 2 hours, 25 teachers and leaders <p>The EL Curriculum is designed to support all students in building language and having opportunities to engage in academic conversations. Language Dives empower students to analyze, understand, and use the language of academic sentences, while Conversation Cues promote productive and equitable conversation. In this workshop, participants will understand the purpose of Language Dives and Conversation Cues, explore curriculum resources, and plan for implementing Language Dives and Conversation Cues in an upcoming unit and lesson.</p> <p>Virtual Workshop for Modules: Writing: Rule of Three</p> <ul style="list-style-type: none">• 2 hours, 25 teachers and leaders <p>The EL Curriculum is designed with the principles of Writing for Understanding at its core. The Rule of Three is a</p>	<p>\$28,500 per school</p>

framework that sets students up for success by offering high levels of support at the beginning of a writing experience and then gradually releasing students to successfully write independently. In this Module Planning workshop, participants will define the Rule of Three and explore examples in the curriculum that support students in analyzing a model and writing a practice piece in preparation for independent writing. They will then plan for the Rule of Three in an upcoming unit and lesson.

Virtual Workshop for Skills Block: Managing and Engaging Students Skills Block

- 2 hours, 25 teachers and leaders

Skills Block instructional practices were designed intentionally for primary learners by incorporating music, movement, flexibility, and joy into Routines and Protocols. Managing and engaging students through these instructional practices requires organization and purposeful planning. In this workshop, participants will define and explore the embedded resources to manage students in Skills Block. They will then plan for managing and engaging students in upcoming Skills Block lessons.

1:1 Virtual Coaching: Imagine Learning EL Education Coaching for Leaders - Modules and/or Skills

- 30 minutes per session, 3 month coaching cycle, 4 district and school leaders

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching practices and enhancing leadership capabilities. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each leader. This leadership coaching will focus on how to support educators with the implementation of the Imagine Learning EL Education Curriculum.

1:1 Virtual Coaching: Imagine Learning EL Education Coaching for Teachers- Modules and/or Skills

- 30 minutes per session, 3-month coaching cycle, 5 teachers

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching and learning practices. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each educator. This 1:1 Coaching will focus on supporting educators with the implementation of the Imagine Learning EL Education Curriculum.

Learning Walks: Learning Walk for Imagine Learning EL Education Curriculum- Modules and/or Skills

- 6 hours, 5 district and school leaders

BetterLesson believes that school and district leaders are, first and foremost, instructional leaders, investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving the learning of the EL Education Curriculum. We can help build leaders' capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning, effectiveness of the implementation of the Imagine Learning EL Education Curriculum, and create a plan for addressing professional learning needs.

Ongoing Support Phase Learning Walks are typically implemented in the Fall and Spring to assess progress and

identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need.

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Strategic Planning: 3 days, 1 EL Staff (Facilitated in 60-90 minute collaborative planning sessions with District Leadership Team)</p> <ul style="list-style-type: none">• These planning sessions are customized and occur with expert EL Education staff members and school/district leadership teams. Sessions inform the design of the partnership plan and occur at critical points in the year to monitor progress on implementation goals and adjust the plan to ensure clarity and alignment with school/district needs. These meetings are a combination of in-person meetings along with regular phone/virtual touchpoints. <p>EL Education K-8 Language Arts Curriculum: Teacher Launch (½ day/3 hours total; up to 25 participants)</p> <ul style="list-style-type: none">• This comprehensive professional learning offering provides essential learning for those who are planning to implement the K-8 ELA curriculum. Participants will gain an understanding of the principles behind the curriculum, explain the structure, explore specific ways the curriculum meets all students' needs, and begin planning for instruction. Via engagement in a series of virtual or in-person sessions, participants will be able to:<ul style="list-style-type: none">○ Describe the structure, design, and key features of the curriculum○ Identify specific ways the curriculum is designed to close the literacy achievement gap○ Analyze the components of the curriculum to begin planning for instruction○ Plan to implement specific instructional practices and strategies that meet the needs of all learners	\$28,350 per school

Leading Implementation of the EL Education Language Arts Curriculum: Leader/Coach Virtual Launch (½ day/ 3 hours total, up to 25 participants)

- Understanding structures and components of the curriculum
- Leadership change agent practices that should occur to support curriculum
- What should be happening to increase student engagement
- Monitoring progress for continuous improvement

K-2 Reading Foundations Skills Block: Virtual Teacher Launch (1 day, up to 25 participants)

- This professional learning offering is active and collaborative. Participants will learn how they can best prepare for the successful implementation of this curriculum to result in improved student achievement and teacher efficacy. Participants will learn about curriculum structure, reflect on their role as a Change Leader, identify key instructional practices, and align on high-quality implementation indicators.
- As part of this training, all participants receive a copy of Your Curriculum Companion: [The Essential Guide to Teaching the EL Education K-5 Language Arts Curriculum](#) and will be directed to use the "Instructional Leadership" component of each chapter to support their ongoing implementation leadership.
- This professional learning sequence is identical to the first pathway of teacher professional learning in format and delivery styles (line above) but the content is specific to the K-2 Reading Foundations Skills Block. All teachers implementing the Skills Block should attend this separate pathway of deep learning in order to understand the components, methodology, and purpose of the Skills Block.

Guided Implementation Monitoring and Data Collection (two 1-day supports; 2 days total)

- These critical data gathering and analysis sessions provide a framework for monitoring the implementation of EL Education’s Language Arts Curriculum. Participants in the Guided Calibration training will align on classroom look-fors and will receive an orientation to the *Dimensions* Data Platform.
- The Calibration and Guided Implementation Support team will work with the EL Education specialist to design a data collection strategy, to include classroom visits at a sampling of schools across the partnership, to measure implementation progress in classrooms and assess the effectiveness of delivered professional learning.

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
As a result of this package:	\$30,000 per school

- School and system conditions for effective curriculum implementation improve
- Schools reach level 4 of the [Curriculum Implementation Scale](#)
- Leaders develop internal capacity to maintain and improve the professional learning system

ACTIVITIES

- **Three co-planning meetings** with system leaders to ensure the summer learning experience aligns with system instructional priorities and addresses unique system context
- **Two-day summer learning experience** with school-based ILTs
 - Understanding effective professional learning and the conditions that enable it
 - Preparing to implement curriculum-specific, job-embedded professional learning in collaborative planning spaces
- **Design of curriculum-specific professional learning** for school-based instructional leaders to deliver to teachers
 - Yearlong adult learning curriculum based on student-facing materials
 - Includes all slide decks, facilitator scripts, and resources for delivering learning in collaborative planning spaces with teachers
- **Monthly school-based coaching** with Instructional Leadership Teams (ILT) at up to 10 schools (alternating in-person and virtual)
 - Planning and preparing to deliver school-based professional learning cycles
 - Internalizing, norming around, and prioritizing implementation indicators
 - Giving effective curriculum- and content-specific feedback
- **Assess system conditions and recommend action steps**
 - Administer Leading Educators’ system conditions assessment - which tracks the presence of the conditions needed for effective curriculum implementation and professional learning in schools - at the beginning of the school year and the end of the school year
 - Present a report with the findings from the assessment and recommendations for priority conditions to address along with suggested actions
- **Progress monitoring**
 - **Three school walkthroughs** with a focus on practicing identifying strengths and challenges with implementation and generating evidence-based feedback
 - **Three two-hour virtual strategy** meetings with system and school leaders to formally pull up on progress and troubleshoot challenges through the synthesis of coaching, participant feedback, and school walkthrough data

DELIVERABLES

- School-specific theories of action for implementation with progress monitoring protocols
- Systems conditions report and recommendations
- One year’s worth of job-embedded, curriculum-specific professional learning materials (slide decks,

facilitator scripts, other resources)

INVESTMENT

The above activities, which include the dedicated capacity and expertise of a Leading Educators project team as well as operational expenses, are a total of **\$300,000** or **\$30,000/per school** for the support in one content area (e.g. ELA, math, or science). Additional schools may be added in groups of 10 for maximum cost efficiency and to keep the cost per school the same or even lower than the per school price below, but Leading Educators can provide customized price quotes for varying school numbers. Please note that event expenses such as venue space and participant food are not included and would be an additional cost.

*Cost may incur additional fees if more than said number of participants

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Getting Started The Getting Started session is the initial step on a teacher’s journey to a successful first 30 days of Into Literature implementation. In a 6-hour in-person learning day, an HMH instructional coach introduces teachers to Into Literature structure, essential resources, and implementation recommendations. Teachers will also explore Ed, HMH’s teaching and learning platform, and their Teacher Success Pathway on Ed. Additional virtual sessions are available upon request at \$800.</p> <p>Teacher Success Pathway Additional training and support will be provided on Ed, HMH’s Learning Platform, where teachers can access their Teacher Success Pathway. Based on their grade level and implementation timeline, this guided learning pathway recommends a sequence of live sessions, on-demand interactive media, and videos that will help teachers plan, teach, and assess learning using Into Literature. They can join and rewatch sessions, access shared materials, and download certificates right from their program dashboard. With resources like scaffolded lesson plans for the first two weeks, teachers will have the right tools at their fingertips to make planning achievable from day one.</p> <p><u>Into Literature Teacher Success Pathway Topics:</u></p> <ul style="list-style-type: none">• Inside the Into Literature Classroom <p>Educators are introduced to Into Literature and an interactive classroom, acquainting teachers with key instructional resources to help organize the classroom. A short model lesson demonstrates how the resources come together for instruction.</p> <ul style="list-style-type: none">• Prepare and Plan Your Instruction	<p>\$29,700 per school</p>

Educators learn the structure and how to tailor Into Literature instruction and plans based on implementation needs, explore ways to identify must-haves for lessons, and identify where to prioritize instructional time.

- **Grade Daily Work and Assessments**

Educators will preview the beginning-of-year and formative assessments and discuss which assessments to select depending on the instructional purpose and grading needs. Teachers learn how to edit the online Into Literature assessments to align with instruction and assign to students directly on Ed and interpret reports to make data-driven instructional decisions based on student needs.

Teacher’s Corner

HMH will continue to support and engage teachers throughout the school year and adoption via Teacher’s Corner on Ed. There teachers will find a searchable library of resources to deepen their learning, including classroom videos, tips and live events from practicing teachers, and additional content and support from HMH’s experienced Instructional Coaches. Please visit us at <https://www.hmhco.com/programs/teachers-corner> for a quick video tour.

Leader Success Session

Introduction to Into Literature structure and usage

During this one-hour live online session, leaders learn about the design and resources of their HMH program. To help leaders develop a plan to guide implementation and set up teachers for a successful start, HMH Coaches share tools and best teaching and student learning practices to observe in the classroom. Leaders also preview the Teacher Success Pathways and resources on HMH Ed for ongoing support.

Leader’s Corner

Yearlong On-Demand Support and Live Events for Leaders

District and site-based leaders have yearlong access to resources, live events, and guides through Leader’s Corner on Ed to help them assist teachers and lead a successful implementation of HMH Into Literature

Instructional Coaching

HMH Coachly is a yearlong coaching subscription (for 3 grade level lead teachers) that provides one-on-one virtual coaching to teachers to build their program expertise, support lesson planning, and discuss data-driven, actionable strategies to grow teacher practice. Designed to maximize learning for both new and veteran educators, Coachly pairs teachers with a dedicated HMH instructional coach who will provide ongoing, personalized support to meet their unique needs. Once logged onto HMH Ed, teachers will be able to schedule unlimited 1-on-1 Coaching sessions, message their coach, share files and resources, and receive timely feedback in a seamless single-platform experience.

2 In-person Coaching days are available for teacher and leader support and may be paired with Coachly subscriptions to maximize impact. In-person Coaching days bring an HMH Coach into the classroom to support teachers and leaders in customizable topics such as program implementation, collaborative planning, and actionable strategies to grow instructional practices. Popular in-person Coaching activities include classroom observations, lesson planning, enhancing peer collaboration, and coach modeling.

HMH Coaching is grounded in the Coaching Framework, a taxonomy of instructional best practices that are proven to impact student achievement. The framework grounds the work of all HMH Coaching partnerships and is structured as such:

- Instructional Domains frame the high-level work of educators
- Instructional Topics under each domain offer a category of actions for teachers and leaders to focus on
- Teacher Practices under each Instructional Topic offer evidence-based goals for each coaching cycle
- Actionable Strategies under each Teacher Practice provide bite-sized ideas for teachers to try
- Popular Instructional Topics include planning and pacing, classroom management, student data and assessments, and learning differentiation.

****Additional Coachly Licenses are available for \$1500 per license and in-person coaching days may be purchased for \$4200 per 6-hour coaching day.***

Courses

Program-Aligned Topical Learning (3 course sessions)

Designed to deepen teacher expertise in both program and instructional practice, HMH Program-Aligned Courses guide topical learning, resource modeling, and application of professional learning in the classroom. In a six-hour course day, an HMH coach guides up to two teacher groups of 35 participants in three hours of topical learning followed by guided planning time.

Available sessions include:

Facilitating Generative Writing for Planning

Drafting with Mentors and Models

Purposeful Feedback and Revision

**This professional learning package is designed to support 35 teachers.*

course day, an HMH coach guides up to two teacher groups of 35 participants in three hours of topical learning followed by guided planning time.

HMH program-aligned courses are currently available Into Literature.

Available sessions include:

Facilitating Generative Writing for Planning

Drafting with Mentors and Models

Purposeful Feedback and Revision

***Additional sessions available for \$4,200.**

Teacher Success Pathway

Additional training and support will be provided on Ed, HMH's Learning Platform, where teachers can access their Teacher Success Pathway. Based on their grade level and implementation timeline, this guided learning pathway recommends a sequence of live sessions, on-demand interactive media, and videos that will help teachers plan, teach, and assess learning using HMH Into Literature. They can join and rewatch sessions, access shared materials, and download certificates right from their program dashboard. With resources like scaffolded lesson plans for the first two weeks, teachers will have the right tools at their fingertips to make planning achievable from day one.

Into Literature Teacher Success Pathway Topics:

- Inside the Into Literature Classroom
 - Educators are introduced to Into Literature and an interactive classroom, acquainting teachers with key instructional resources to help organize the classroom. A short model lesson demonstrates how the resources come together for instruction.
- Prepare and Plan Your Instruction
 - Educators learn the structure and how to tailor Into Literature instruction and plans based on implementation needs, explore ways to identify must-haves for lessons, and identify where to prioritize instructional time.
- Grade Daily Work and Assessments
 - Educators will preview the beginning-of-year and formative assessments and discuss which assessments to select depending on the instructional purpose and grading needs. Teachers learn how to edit the online Into Literature assessments to align with instruction and assign to students directly on Ed and interpret reports to make data-driven instructional decisions based on student needs.

<p>Teacher’s Corner HMH will continue to support and engage teachers throughout the school year and adoption via Teacher’s Corner on Ed. There teachers will find a searchable library of resources to deepen their learning, including classroom videos, tips and live events from practicing teachers, and additional content and support from HMH’s experienced Instructional Coaches. Please visit us at https://www.hmhco.com/programs/teachers-corner for a quick video tour.</p> <p>Leader’s Corner Yearlong On-Demand Support and Live Events for Leaders District and site-based leaders have yearlong access to resources, live events, and guides through Leader’s Corner on Ed to help them assist teachers and lead a successful implementation of Into Literature</p> <p><i>*This professional learning package is designed to support 35 teachers.</i></p>

Louisiana's ELA Guidebooks

ELA

High-Quality Professional Learning Packages

*If implementing Louisiana's ELA Guidebooks 3-5 (2022), it is recommended and strongly encouraged that systems select a package from The Writing Revolution (TWR) to accompany a package from another approved professional learning partner. The Writing Revolution is the only professional learning provider authorized to provide professional learning on the TWR strategies embedded within this version of the curriculum. This combined professional learning will ensure that educators receive comprehensive professional learning that addresses the full depth and breadth of all components of the curricular materials.

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>TWR ELA Guidebooks 3-5 (2022) Workshop</p> <p>Description: This asynchronous workshop prepares educators to teach the TWR writing strategies as they appear in the revised ELA Guidebook 3-5 (2022) units.</p> <p>To support district and school leaders, sample professional development scheduling options are provided. Additionally, district and school leaders can utilize the provided facilitator’s guide which offers detailed suggestions to prepare for the training and maximize learning during all aspects of the interactive workshop.</p> <p>Duration: 6 hours</p> <p>Format: The workshop, accessible on Teach:able, is divided into modules that contain a mixture of instructional videos, classroom “in action” videos, and interactive activities, including quizzes and try-its. Also included are culminating activities that offer educators an opportunity to apply their learning to grade-level specific ELA Guidebooks 3-5 (2022) content.</p>	<p>\$250 per educator</p> <p><i>10% discount for 2+ educators</i></p> <p><i>20% discount for 10+ educators</i></p>

Package Description and Services	Pricing Information
----------------------------------	---------------------

<p>TWR Implementation Status Visit</p> <p>Description: This service is available for districts. Districts that have already participated in training can request a TWR Implementation Status Visit to evaluate the progress of TWR implementation and identify areas requiring further support. Successful TWR implementation ensures that every teacher is trained and supported to use the same approach to writing instruction as it is embedded in the ELA Guidebooks 3-5 (2022). This leads to consistency in teaching practices, enhanced collaboration, and improved student outcomes across the entire school and district.</p> <p>Through multiple touchpoints, TWR engages with school and district personnel and compiles observations from classroom visits and a review of materials to provide a comprehensive assessment of the current status of TWR implementation in the district. TWR collaborates with the district leadership team by reflecting on observations, sharing insights, and offering actionable suggestions to build teacher and leadership capacity to enhance TWR implementation.</p> <p>Duration: full-day</p> <p>Format: Pre-visit meeting, on-site school visit, post-visit meeting, TWR feedback survey</p>	<p>\$3,500 per full-day, in-person visit</p>

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>ELA Guidebook Workshops provide supported lesson design and planning with a focus on topics ranging from Guidebooks and associated resources to text-dependent questions, vocabulary, writing, and differentiation. Workshops prioritize equipping teachers to help every student achieve proficiency at grade level or above.</p> <p>Familiarization with the curriculum components and structure: pacing, unpacking, lesson planning, assessment/data literacy</p> <p>Teacher and Leader Coaching: familiarization with the curriculum components and structure, walk-through and observation look-fors, action planning, side-by-side coaching and feedback cycles based on curricular essentials, leader check-ins, ongoing support, students with disabilities supports, English Learners supports</p> <p>ELA Guidebooks Professional Learning: Workshops</p> <ul style="list-style-type: none">• Introduction to ELA Guidebooks<ul style="list-style-type: none">○ In this workshop, teachers will learn to navigate the ELA Guidebooks platform and explore the Standards-based backward design model organized around a collection of texts. Teachers will engage in a model lesson, investigate ELA Guidebooks components and resources, and explore high-leverage strategies that may be used to drive instructional improvements. Guided lesson planning is included in this workshop.• Every Student, Every Day	<p><u>5-Session Packages:</u></p> <p>Virtual professional learning (per school, 25 participants max): \$12,000</p> <p>In-person professional learning (per school, 25 participants max): \$18,500</p>

<ul style="list-style-type: none"> ○ The goal of the ELA Guidebooks units is to ensure that all students read, understand, and express their understanding of complex grade-level texts. In this workshop, teachers will investigate additional resources and tools within the ELA Guidebooks platform to plan lessons with embedded differentiation for multi-lingual learners and students with special needs. Additional exploration of high-leverage teacher strategies and guided lesson planning are included in this workshop. ● ELA Guidebooks & Writing <ul style="list-style-type: none"> ○ Effective writing instruction requires a deep understanding of the grade-level expectations for each writing genre: informational, narrative, and argument. In this workshop, teachers will use the ELA Guidebooks to deepen their understanding of these genres, examine writing tasks and rubrics as tools for instruction and assessment, and annotate lessons for appropriate support as identified through assessment protocol. ● ELA Guidebooks & Vocabulary <ul style="list-style-type: none"> ○ The amount and sophistication of academic vocabulary found in complex texts can present a challenge to readers. In this workshop, teachers will explore the tiers of vocabulary and the relationship between vocabulary and text complexity. Guided lesson planning will provide an opportunity for teachers to bring best practices in vocabulary instruction to their ELA Guidebooks instruction. ● ELA Guidebooks & Text-Dependent Questions <ul style="list-style-type: none"> ○ Text-dependent questions are a powerful tool to scaffold complex text and to challenge, engage, and support students. In this workshop, teachers will learn to design text-dependent questions, explore four cognitive pathways and their impact on student thinking, and design scaffolded questions aligned to ELA Guidebooks– lesson look-fors that support all learners.

Ongoing Support Package

Package Description and Services	Pricing Information
<p>Leadership and teacher teams work together to refine ELA Guidebooks instruction and build systems for continuous improvement. These 5-day learning cycles examine data to identify strengths and set goals. Teams collaboratively plan lessons with high-leverage instructional strategies, elbow-to-elbow coaching, teacher collaborations to debrief and analyze, and purposeful reflection grounded in evidence and improvement science.</p> <p>Continuous learning and improvement for educators: strategic data-informed instruction, addressing unfinished learning, additional curricular supports, enhancing teacher collaboration, support in curriculum implementation essentials for new teachers/leaders</p>	<p><u>5-Session Packages:</u></p> <p>Virtual professional learning (per school, 25 participants max): \$12,000</p>

Teacher and Leader Coaching: familiarization with the curriculum components and structure, walk-through and observation look-fors; Action planning, side-by-side coaching and feedback cycles based on continuous and unfinished learning; Leader check-ins; Ongoing support, students with disabilities support, English Learners support.

ELA Guidebooks Professional Learning: Job-Embedded

Available in adjustable 5-day learning cycles, this Professional Development package provides leadership and teacher teams with the opportunity to refine ELA Guidebooks instruction and build systems for continuous improvement.

- **Day 1**
 - Leadership teams examine evidence of implementation, note trends, and variations, and identify strengths and potential high-leverage instructional strategies and formative assessments in the curriculum (for example: engagement strategies, Accountable Talk®, rigorous questioning, and the use of visual aids).
- **Day 2**
 - The ARC Coach leads Professional Learning Community meetings focused on planning lessons that include the high-leverage instructional strategies identified.
- **Day 3**
 - Teachers facilitate the planned lessons (incorporating the identified high-leverage instructional strategies) with elbow-to-elbow coaching from the ARC Coach.
- **Day 4**
 - The ARC Coach leads teacher collaboration meetings to debrief the lessons, analyze student work, lead the provision of procedural feedback, and action next steps.
- **Day 5**

Leadership teams examine evidence of implementation and impact of the improvement cycle, note trends and variations, and determine action steps for continued improvement and capacity building.

In-person professional learning (per school, 25 participants max): \$18,500

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>ARC Executive Coaches, in collaboration with district leadership, develop literacy leaders to run site-based coaching in their building. Principals and Literacy Coaches from across the district work together with targeted support from the ARC Executive Coach to create a working model with demonstrated impact. Participants collaboratively determine a shared vision of success and are responsible for coaching their schools.</p>	<p>5-Session Packages:</p>

Topics Covered/Support Provided: leader coaching through walk-throughs, planning sessions, and observations, best practices for leveraging teacher leaders, support with establishing effective teacher collaboration, planning sessions for strategic use of professional learning days, teacher collaboration, and teacher planning time, sample planning agendas, regular check-ins with leaders, how to determine and respond to teacher needs, ongoing support, students with disabilities supports, English Learners supports.

ELA Guidebooks Professional Learning: Learning Lab

Available in adjustable 5-day learning cycles, this Professional Learning package provides leadership teams the opportunity to refine ELA Guidebooks instruction, feedback, and support systems, and build systems for continuous improvement.

- **Day 1**
 - Leadership teams examine evidence of implementation, note trends, and variations, and identify strengths and potential high-leverage instructional strategies for all students.
- **Day 2**
 - The ARC Coach provides support for leaders and models teacher collaboration meetings focused on planning lessons that include the high-leverage instructional strategies identified. During these meetings, special attention is given to data on teacher and student growth and needs. Additional focus is placed on disaggregated data for students with disabilities and multi-lingual learners.
- **Day 3**
 - The ARC Executive coach provides coaching for leaders through walk-throughs. Leaders observe teachers facilitating planned lessons (incorporating the identified high-leverage instructional strategies). The ARC Executive coach guides the leaders to gather Powerful and Potential Moves in instructional practice and deliver Procedural Feedback to teachers.
- **Day 4**
 - The ARC Coach models and leads Professional Learning Community meetings to debrief the lessons, analyze student work, lead the provision of procedural feedback, and action next steps.
- **Day 5**
 - Leadership teams examine evidence of implementation and impact of the improvement cycle, note trends and variations, and determine action steps for continued improvement and capacity building.

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
---	----------------------------

Instructional Goal-Setting

- Audience: Leaders and Instructional Support staff (up to 25 participants)
 - The package includes district instructional leaders and school leaders for three schools.*
- Time Requirements: 1 day
- Objectives: Leaders will use student data to develop 1-3 clear instructional goals for each school (SMART goals) and identify the clear role that curriculum and student work play in impacting those goals. Leaders will understand how coaching and feedback will be used to impact progress toward instructional goals.
- Session Agenda:
 - Determine the story the school data is telling.
 - Prioritize focus areas for writing goals.
 - Develop 1-3 SMART instructional goals per school.
 - Determine initial action steps for impacting goals and identify the professional learning structures to be used to impact those goals (professional learning days, planning time, collaborative teacher time)

Leader Coaching

- Audience: District and School Leaders and Instructional Support staff of the three participating schools
- Time Requirements: 3 days (one day per school)*
- Objectives: To collect walkthrough data to determine instructional trends, identify how they are currently impacting progress toward instructional goals, and refine action steps.
- Session Agendas:
 - Conduct observations (up to 8 teachers per school) side by side with leaders
 - Determine instructional trends
 - Refine action steps and identify at least 3 professional learning structures to leverage (Examples include professional learning days, leveraging teacher leaders, collaborative planning time, instructional coaching moves and feedback, formal observations, etc.)
 - Co-plan a sequence of learning or support based on those structures and determine progress monitoring structures.

Virtual Check-Ins

- Audience: District and School Leaders and Instructional Support staff of the three participating schools
- Time Requirements: 18 hours (6 monthly one-hour virtual calls per school)
- Objectives: To monitor progress toward instructional goals and action plan completion. To provide planning support and tools for professional learning structures
- Session Agenda: TBD based on action plan steps and individual needs, and can include but are not limited to planning and support through the following:
 - Co-observing or transcript reading of recorded segments of classroom instruction and planning feedback

\$24,500 per school

**Additional schools can be added on to the base price package or final walk-throughs can be added to collect end-of-year data.*

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>In-Person Launch Workshop: Launching Louisiana’s ELA Guidebooks (6 hours, 25 teachers and leaders)</p> <p>This workshop is designed to serve as your learning community’s introduction to the Guidebooks ELA Curriculum. Participants will have the opportunity to dive into the curriculum from both a teacher and student perspective. The group will work together to develop comfort with the design and structure of curricular resources, and confidence in planning effectively.</p> <p>In-Person Planning Workshop: Going Deeper Strategic Planning for Louisiana’s ELA Guidebooks (6 hours, 25 teachers and leaders)</p> <p>As educators gain experience teaching the Guidebooks Curriculum, they are better prepared to dig deeper into instructional practices and how to support the needs of all students by strategically planning for instruction. During this workshop, educators engage in concrete activities that develop and deepen their understanding of how to strategically plan for Guidebooks lessons based on assessment data. This workshop will focus on applying what educators already understand and go deeper into intentional planning and support the success of students.</p> <p>1:1 Virtual Coaching: Louisiana’s ELA Guidebooks (30-minute sessions - 3-month coaching cycle, 5 district and school leaders)</p> <p>BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching practices and enhancing leadership capabilities. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly</p>	\$24,700 per school

personalized and differentiated approach for each participant, including alignment with the needs of Louisiana’s ELA Guidebooks.

Learning Walks: Louisiana’s ELA Guidebooks (6 hours, 5 district and school leaders)

BetterLesson believes that school and district leaders are, first and foremost, instructional leaders investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving learning of Louisiana’s ELA Guidebooks. We can help build leaders’ capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning and the effectiveness of the implementation of Louisiana’s ELA Guidebooks and create a plan for addressing professional learning needs. Adoption Phase Learning Walks are typically implemented in the Fall, Winter, and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need.

Ongoing Support Package

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p><u>Executive Planning with district leaders (administrators, curriculum leads, etc.)</u></p> <p>Overview: The kickoff to implementing McGraw Hill’s StudySync starts with an Executive Planning Meeting. This meeting provides an opportunity for the McGraw Hill team to collaborate with district leadership to plan and address specific instructional objectives. (Can be virtual or in person and will last between 45-90 minutes)</p> <ul style="list-style-type: none">• Discuss and outline district goals• Plan specific session agendas to best facilitate district professional learning sessions <p><u>Program Implementation – Virtual or On-Site</u></p> <ul style="list-style-type: none">• Two 90-minute virtual sessions or a combined three-hour on-site session<ul style="list-style-type: none">○ Sessions organized by grade bands: 6-8, 9-12, or 6-12○ Grade-level specific sessions are offered based on availability• Goal: To ensure teachers gain the knowledge and skills necessary to begin using McGraw Hill’s StudySync immediately in their classrooms, including a comprehensive understanding of both print and digital features.• Outcomes: By the end of the session, participants will be able to:<ul style="list-style-type: none">○ Navigate print and digital resources○ Understand lesson structure and planning options○ Apply differentiated instruction options within the core program○ Administer progress monitoring and assessment options <p>StudySync 101 Implementation Training (teachers and leaders)</p> <ul style="list-style-type: none">• One 90-minute session	<p>\$10,500 per cadre (cadre can have up to 35 participants)</p>

- Introduction to the pedagogical foundations of StudySync through purposeful navigation of print and digital resources.
- Participants will explore instructional resources at unit and lesson levels, engage with tiered resources for differentiation, introduction to digital resources.
- **Goal:** Equip teachers with the knowledge and skills to begin using the resources immediately in their classroom.

StudySync 102 Implementation Training (teachers and leaders)

- One 90-minute session (Prerequisite: StudySync 101 Implementation Training)
- Continuation from StudySync 101, a deeper dive into digital resources and assessments.
- Participants will explore formative and summative assessments and integration of digital resources for data-driven instructional decisions.
- **Goal:** Enable teachers to efficiently integrate StudySync’s digital resources and make impactful instructional decisions.

Instructional Coach Capacity-Building Training – Virtual or On-Site (3-6 hours)

- Build instructional capacity through District/Campus Instructional Coaches to ensure implementation fidelity and teacher success.
- **Activities:**
 - Participate in StudySync 101 and 102 Implementation Training
 - Support classroom teachers with lesson structure/pathways and planning
 - Topics include program overview, assessment, data reporting, professional development resources, and supporting teachers during teacher collaboration

Administrator Training – Virtual (45-90 minutes)

- **Objective:** Build a high-level understanding of StudySync for administrators, focusing on key program elements for successful implementation.
- **Activities:**
 - Overview of data and reporting tools generated through student assessment
 - Understand key elements for successful implementation
- **Outcomes:** Participants will understand:
 - StudySync’s structure and pedagogy
 - Key elements to ensure successful implementation
 - Data and reporting generated by student assessments

Mid-Year & End-of-Year Meetings (1 mid-year and 1 end-of-year meeting)

- **Objective:** Determine the impact of core instructional resources and define further professional development needs

<ul style="list-style-type: none"> ● Activities: <ul style="list-style-type: none"> ○ Meetings between McGraw Hill and district leadership ○ Explore the need for supplemental materials to support targeted student populations <p>Scheduling Parameters:</p> <p>On-Site Professional Learning Guidelines</p> <ul style="list-style-type: none"> ● A minimum of 18 participants must be registered and confirmed 10 business days before the training date, or the session will be conducted virtually ● Multiple on-site sessions must be scheduled on consecutive days with morning and afternoon sessions ● The recommended ratio of teachers to trainer is 35:1, with flexibility based on district needs ● No facilitation of teacher planning time post-training <p>Virtual Professional Learning Guidelines</p> <ul style="list-style-type: none"> ● Sessions scheduled for less than two hours will be virtual ● Minimum of 10 registered participants for virtual training ● Districts must set up webinar links and send them to the Sales Rep <p><i>*Cost includes 3 onsite sessions for a cadre of up to 35 participants</i></p>

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Executive Planning with district leaders (administrators, curriculum leads, etc.) Overview: The kickoff to implementing McGraw Hill’s Wonders starts with an Executive Planning Meeting. This meeting provides an opportunity for the McGraw Hill team to collaborate with district leadership to plan and address specific instructional objectives. (Can be virtual or in person and will last between 45-90 minutes)</p> <ul style="list-style-type: none">• Discuss and outline district goals• Plan specific session agendas to best facilitate district professional learning sessions <p>Program Implementation – Virtual or On-Site</p> <ul style="list-style-type: none">• Two 90-minute virtual sessions or a combined three-hour on-site session<ul style="list-style-type: none">○ Sessions organized by grade bands: K-1, 2-5, or K-5○ Grade-level specific sessions are offered based on availability• Goal: To ensure teachers gain the knowledge and skills necessary to begin using McGraw Hill’s Wonders immediately in their classrooms, including a comprehensive understanding of both print and digital features.• Outcomes: By the end of the session, participants will be able to:<ul style="list-style-type: none">○ Navigate print and digital resources○ Understand lesson structure and planning options○ Apply differentiated instruction options within the core program○ Administer progress monitoring and assessment options <p>Wonders 101 Implementation Training (teachers and leaders)</p> <ul style="list-style-type: none">• One 90-minute session	<p>\$10,500 per cadre (cadre can have up to 35 participants)</p>

- Introduction to the pedagogical foundations of Wonders through purposeful navigation of print and digital resources.
- Participants will explore instructional resources at unit and lesson levels, engage with tiered resources for differentiation, introduction to digital resources.
- **Goal:** Equip teachers with the knowledge and skills to begin using the resources immediately in their classroom.

Wonders 102 Implementation Training (teachers and leaders)

- One 90-minute session (Prerequisite: Wonders 101 Implementation Training)
- Continuation from Wonders 101, a deeper dive into digital resources and assessments.
- Participants will explore formative and summative assessments and integration of digital resources for data-driven instructional decisions.
- **Goal:** Enable teachers to efficiently integrate Wonders’ digital resources and make impactful instructional decisions.

Instructional Coach Capacity-Building Training – Virtual or On-Site (3-6 hours)

- Build instructional capacity through District/Campus Instructional Coaches to ensure implementation fidelity and teacher success.
- **Activities:**
 - Participate in Wonders 101 and 102 Implementation Training
 - Support classroom teachers with lesson structure/pathways and planning
 - Topics include program overview, assessment, data reporting, professional development resources, and supporting teachers during teacher collaboration

Administrator Training – Virtual (45-90 minutes)

- **Objective:** Build a high-level understanding of Wonders for administrators, focusing on key program elements for successful implementation.
- **Activities:**
 - Overview of data and reporting tools generated through student assessment
 - Understand key elements for successful implementation
- **Outcomes:** Participants will understand:
 - Wonders’ structure and pedagogy
 - Key elements to ensure successful implementation
 - Data and reporting generated by student assessments

Mid-Year & End-of-Year Meetings (1 mid-year and 1 end-of-year meeting)

- **Objective:** Determine the impact of core instructional resources and define further professional development needs

<ul style="list-style-type: none"> ● Activities: <ul style="list-style-type: none"> ○ Meetings between McGraw Hill and district leadership ○ Explore the need for supplemental materials to support targeted student populations <p>Scheduling Parameters</p> <p>On-Site Professional Learning Guidelines</p> <ul style="list-style-type: none"> ● Minimum of 18 participants must be registered and confirmed 10 business days before the training date, or the session will be conducted virtually ● Multiple on-site sessions must be scheduled on consecutive days with morning and afternoon sessions ● The recommended ratio of teachers to trainer is 35:1, with flexibility based on district needs ● No facilitation of teacher planning time post-training <p>Virtual Professional Learning Guidelines</p> <ul style="list-style-type: none"> ● Sessions scheduled for less than two hours will be virtual ● Minimum of 10 registered participants for virtual training ● Districts must set up webinar links and send them to the Sales Rep <p><i>*Cost includes 3 onsite sessions for a cadre of up to 35 participants</i></p>

<p>District Success Partnerships include planning and technical setup support, Success Metric Strategy Meetings, and a variety of professional learning options. It provides leaders with thought partnership and tools to successfully develop an implementation plan that communicates the district’s vision, goals, and expectations for implementing Lexia’s Blended Learning Model to school leaders, educators, students, and families. Success Metric Strategy Meetings highlight key data to monitor progress, celebrate success, and tune the implementation when needed.</p>	<p>PowerUp District Success Partnerships:</p> <p>Bronze: \$4,000 Silver: \$8,300</p>

PowerUp District Success Partnership (Bronze) Up to 250 student licenses

- Planning Meeting
- Success Metric Review (2)
- Live Online Professional Learning (2)
- Lexia Academy
- Asynchronous Professional Learning

PowerUp District Success Partnership (Silver) 250-500 student licenses

- Planning Meeting
- Success Metric Review (4)
- Live Online Professional Learning (4)
- Lexia Academy
- Asynchronous Professional Learning

Adoption and Initial Implementation Leadership Outcomes

- Develop a vision for Lexia implementation
- Understand why Lexia is being used
- Understand how Lexia's Adaptive Blended Learning Model fits with the current ELA curriculum
- Define the district/school's implementation goals and plan, including educators' roles and responsibilities and important implementation dates and milestones
- Establish building policies for regular use of Lexia and Lexia data routines

Recommended sessions: Below are recommended professional learning sessions based on the identified implementation package.

[Synchronous Professional Learning Sessions Available for Adoption and Initial Implementation](#)

- Leading with Lexia (Leadership/Admin Audience)
- How PowerUp works
- Next steps after Auto-placement - synchronous and national live online options
- Implementing PowerUp
- Class-Level Reports

Asynchronous Live Online or National Live Online Professional Learning sessions are also available with this partnership.

- Introduction to PowerUp

Additional Professional Learning beyond that included in success partnerships:

*PowerUp Live Online Professional Learning:
\$1,000/session*

*PowerUp Onsite Professional Learning:
\$4,250/day*

- PowerUp: What is myLexia?

S.P.I.R.E. Foundations: Sounds Sensible® Virtual Initial Implementation Training

(2) sequential, 90-minute modules

- Module 1:
 - Characteristics of Nonreaders
 - Exploring the Sounds Sensible Kit
 - The Five Steps Lesson
 - The Importance of Phonological Awareness Instruction
 - Thumbs Up for Rhyme Strategy
 - Sound Production
- Module 2:
 - Sounds Sensible Model Lesson
 - In-depth Look at the Five-Step Lesson
 - Review Reinforcing Lesson
 - Assessments

S.P.I.R.E. Refresher Virtual Session: 90-minute session

- A virtual review of the five-step lesson format and the strategies represented in S.P.I.R.E. Foundations: Sounds Sensible lessons. Review discussion of placement, pacing, and how to organize materials. Progress monitoring is discussed in more detail. Teachers are encouraged to ask questions and share best practices.

S.P.I.R.E. Administrative Virtual Overview Webinar: 45-60 minute session for leaders

- Critical to the success and sustainability of any new program implementation is the district vision and plan of support for struggling readers. It's important to give administrators the information they need to support the teachers and the instructional integrity of the program. An important first step of this process is to invite you to an overview presentation of S.P.I.R.E. The District Admins are the stewards and understand the connections between effective teacher professional development, and student achievement and provide support to ensure teachers are prepared to teach all students how to read. Please join us for a brief walk-through:
 - Implement a SPIRE 10-step lesson
 - SPIRE Fidelity Checklist – collaborate with your teachers
 - Make data-based decisions

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Overview: The high-quality professional learning in the first year of Great Minds curriculum implementation builds teachers' knowledge and skills for success and develops the capacity of leaders and coaches to lead and support implementation. Year 1 adoption and implementation success supports are focused on familiarizing educators with the curriculum, building leader/coach understanding of key look fors, and providing a vision for success with the curriculum.</p> <p>Activities:</p> <ul style="list-style-type: none">• Check-ins with school and system leaders to develop a shared vision, plan supports, monitor progress, and answer questions• Included Services for Teachers:<ul style="list-style-type: none">○ Launch introductory professional learning session (1 day)○ Module and lesson study instructional planning session (1 day)• Included Services for Leaders (at the school and system levels) and Coaches<ul style="list-style-type: none">○ Lead implementation session (1/2 day-1 day depending on curriculum/site schedule needs)○ Deepening understanding of the curriculum's design (variable pacing, virtual) (possible 1/2 day)○ Guided observations of the curriculum for leaders/coaches (1 day)○ Strategic planning (1 day)• Included Services for Teachers, Coaches, and Leaders<ul style="list-style-type: none">○ Coaching support for all educators (3 days; coaching series or personalized coaching sequence) <p>Deliverables:</p>	\$25,400 per school

<ul style="list-style-type: none"> ● Implementation resources ● Preparation protocols for the lesson and module level ● Teaching and learning progression/implementation support tool, with curriculum-specific indicators <p>Investment: The above activities, which include the dedicated capacity and expertise of a Great Minds Success team member as well as operating expenses, total \$29,400 per school for one content area (e.g., ELA, math, or science). In general, virtual sessions accommodate up to 35 educators and in-person sessions accommodate up to 50 educators. Pricing is per anticipated cohort size. Some sessions are designed for a specific audience (e.g., leaders) or a specific grade level or grade-level band. Great Minds can provide customized price quotes for varying school numbers. Note that event expenses such as venue space and participant food are not included and would be an additional cost.</p>

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>In-Person Launch Workshop: Launching IM for Leaders (6 hours) Shifting from a traditional, teacher-led math curriculum to an updated, student-led math class is an initiative that can be challenging. This active, engaging workshop will provide leaders with a foundational understanding of what makes the IM Math curriculum unique, as well as a space to think through the change management required by this shift. Over the day, each leader will use design thinking to map out their plans to support the success of the curriculum.</p> <p>In-Person Launch Workshop: Launching IM K-5 Math (6 hours, 25 Teachers and Leaders) This workshop is designed to serve as your learning community’s introduction to the IM Math K-5 Curriculum. Participants will have the opportunity to dive into the curriculum from a student perspective and use this experience to explore how the curriculum is designed for a problem-based approach to math instruction. The group will work together to develop comfort with the design and structure of curricular resources, and confidence in planning effectively.</p> <p>In-Person Planning Workshop: Designing Strategic Unit and Lesson Plans (6 hours, 25 teachers and Leaders) IM Math K-5 units are designed to tell a mathematical story that helps students explore concepts and develop number sense over time. To bring this to life, teachers need to understand the learning progression of a unit and how the lessons are sequenced to help students build fluency. In this workshop, teachers will have the opportunity to collaboratively plan an upcoming unit and lesson.</p> <p>Virtual Workshop: Using Instructional Routines to Support All Learners (2 hours, 25 Teachers and Leaders) The IM Math K-5 curriculum materials are designed to support each student to take risks, engage in mathematical</p>	\$29,450 per school

discourse, and productively struggle through problems. There are 20 math routines consistently embedded in lesson materials that can provide a scaffold to help any student engage with and make sense of the core ideas. In this 2-hour virtual workshop, participants will explore and plan for the embedded instructional routines that help all students be successful and enjoy grade-level math content without a separate intervention block.

Virtual Workshop: Using Centers to Build Fluency (2 hours, 25 Teachers and Leaders)

In this interactive virtual workshop, participants will define the different approaches to developing numeric fluency and how centers can support the goal. Participants will focus on classroom management of centers, including time, materials management, and monitoring student progress.

1:1 Virtual Coaching: IM K-5 Coaching for Leaders (30 minutes each session, 5 District and School Leaders)

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching practices and enhancing leadership capabilities. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each leader. This leadership coaching will focus on how to support educators with the implementation of the IM K-5 Curriculum.

Learning Walks: Learning Walk for IM Math K-12 (6 hours, 5 District and School Leaders)

BetterLesson believes that school and district leaders are first and foremost instructional leaders, investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving the learning of the IM K-5 Curriculum. We can help build leaders' capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning, the effectiveness of the implementation of the IM K-5 Curriculum, and create a plan for addressing professional learning needs.

Adoption Phase Learning Walks are typically implemented in the Fall, Winter, and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need.

Ongoing Support Package

Package Description and Services	Pricing Information
In-Person Launch Workshop: Designing a Plan to Get the Most out of Curriculum Supports (6 hours, 25 Teachers and Leaders)	\$29,925 per school

The curriculum is intentionally designed to support students taking risks, engaging in mathematical discourse, and productively struggling through problems. There are 20 math routines consistently embedded in lesson materials that can provide a scaffold to help any student engage with and make sense of the core ideas. In this workshop, participants will explore and plan for the embedded instructional routines that help all students be successful and enjoy grade-level math content without a separate intervention block.

Virtual Workshop: Facilitating Activities with Math Language Routines: Making Sense of Tasks (2 hours, 25 Teachers and Leaders)

Problem-based math classrooms are rich in and demanding various language skills, in addition to developing conceptual understanding and procedural fluency. Mathematical language routines create structures that support students' learning of mathematical concepts, practices, and language simultaneously. In this 2-hour virtual activity planning workshop, participants will explore two routines that amplify rather than simplify language and plan to support students in making sense of an upcoming activity through those routines.

Virtual Workshop: Facilitating Activities with Math Language Routines: Cultivating Conversations (2 hours, 25 Teachers and Leaders)

Activities in a problem-based curriculum are carefully crafted to encourage students to reason and make connections through problem-solving. Students need multiple opportunities to engage in meaningful conversations with their peers as part of this knowledge-building process. In this virtual activity planning session, participants will learn about the conditions and mathematical language routines that cultivate constructive conversations and will create a plan for an upcoming activity.

Virtual Workshop: Facilitating Activities with Math Language Routines: Optimizing Output (2 hours, 25 Teachers and Leaders)

As students develop conceptual understanding, they must grapple with and revise their learning while engaging in activities. As these new ideas solidify, students need opportunities to describe their mathematical thinking orally, visually, and in writing. In this virtual activity planning workshop, participants will explore and plan for mathematical language routines that optimize student output in an upcoming activity.

1:1 Virtual Coaching: IM K-5 Coaching for Leaders (30 minutes each session, 4 District and School Leaders)

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching practices and enhancing leadership capabilities. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each leader. This leadership coaching will focus on how to support educators with the implementation of the IM K-5 Curriculum.

1:1 Virtual Coaching: IM K-5 Coaching for Teachers (30 minutes each session, 5 Teachers)

BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on promoting effective teaching and learning practices. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each educator. This 1:1 Coaching will focus on supporting educators with the implementation of the IM K-5 Curriculum.

Learning Walks: Learning Walk for IM Math (6 hours, 5 District and School Leaders)

BetterLesson believes that school and district leaders are first and foremost instructional leaders, investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving the learning of the IM K-5 Curriculum. We can help build leaders' capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning, the effectiveness of the implementation of the IM K-5 Curriculum, and create a plan for addressing professional learning needs.

Ongoing Phase Learning Walks are typically implemented in the Fall and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need.

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Takeoff with Imagine IM Session 2 hours, virtual This session is a high-level overview of Imagine IM and its components, designed to give participants a peek into the resources and get participants excited about starting their implementation journey. Participants will explore problem-based instruction in the Imagine Learning Classroom platform and will leave prepared to explore the resources and confidently prepare for the school year.</p>	\$15,000 per school (onsite)
<p>Getting Started with Imagine IM 6 hours, onsite This session prepares teachers to use Imagine IM resources for instruction. Teachers will explore digital and print materials to grasp unit and lesson structures and learn how to prepare for student-centered teaching. This session is highly recommended for teachers before using Imagine IM in the classroom.</p>	\$10,000 per school (virtual)
<p>Imagine IM for School and District Leaders 3 hours, onsite This session prepares leaders to successfully implement Imagine IM. Leaders will explore problem-based learning, thinking specifically of how problem-based classrooms offer different experiences than more traditional math instruction. Reflection opportunities are integrated throughout the session, allowing participants to both draw on their own experiences and strategize for their unique roles in successful implementation.</p>	
<p>Introduction to Learning Walks: Tools and Best Practices 3 hours, onsite</p>	

This session will introduce instructional leaders to the Learning Walk tool and process as they prepare to support teachers in their implementation of Imagine Learning IM. Learning Walks for Leaders are strongly recommended for continued mathematics-based guidance and support.

Ongoing Support Package

Package Description and Services	Pricing Information
<p>Surfacing Student Thinking to Assess for Understanding 3 hours, onsite</p> <ul style="list-style-type: none"> This session will deepen teachers' understanding and application of student-centered learning strategies to elevate student voice and thinking. Participants will practice using student thinking and formative assessments to intentionally guide instructional decisions. Additionally, participants will explore techniques to deepen classroom community and improve questioning strategies to elicit deep thinking, encourage rich discourse, and support effective assessment practices. <p>Understanding Student Thinking to Synthesize Learning 3 hours, onsite</p> <ul style="list-style-type: none"> During the session, teachers will connect the structure of lesson activities to the overarching structure of the Imagine IM curriculum. They will self-assess their current practices and identify areas for refinement by comparing their instruction to short vignettes aligned with the IM Reflection tool. Additionally, teachers will use a guided process to plan an upcoming activity. <p>Office Hours for Imagine Learning Illustrative Mathematics 4 hours (1-hour sessions)</p> <ul style="list-style-type: none"> Each Office Hours session allows educators to choose from a list of our targeted support topics such as site navigation, assigning lessons and assessments, Live Learn, and personalization features. Teachers can ask questions and receive targeted support around the use of these features and functionality within the Imagine Learning Classroom (ILC) by one of our Certified Professional Development Specialists. <p>Learning Walks for Leaders onsite only</p> <ul style="list-style-type: none"> The IL Learning Walk series equips instructional leaders with guidance and tools to identify trends in classroom practice to target the next steps for professional learning and development. The series includes two learning walks for an audience of five instructional leaders. 	<p>\$30,000 onsite/\$24,000 virtual per school</p>

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p><u>Teaching: Planning and Pedagogy</u></p> <p>IM Teach & Learn Module – 2 Day (consecutive days) Onsite or Virtual, prior to start of school year. <i>Leaders encouraged to attend Teach & Learn Modules alongside teachers.</i></p> <p>Day 1:</p> <ul style="list-style-type: none"> Part 1: Experiencing Problem-based Instruction – experience the components to a lesson and then examine the structure of a lesson, the purpose of each component, and how the overreaching design structure plays out in the curriculum. Name the components of the curriculum that are helpful for planning and locate resources for planning and teaching with IM 6-12. Part 2: Inviting Student Thinking - Describe instructional routines and how they help students play with mathematical ideas, learn by collaborating with each other and listen, response to and value each other’s thinking. Practice recording student thinking for all to see. <p>Day 2:</p> <ul style="list-style-type: none"> Part 3: Enhancing Access to Mathematics – Locate resources and opportunities to enhance access and challenge for students with disabilities and English learners. Establish norms that build a positive mathematical community. 	<p>\$30,000 Onsite package price/ per Group #25 participant max.</p> <p>\$18,000 Virtual Package price/ per Group #25 participant max.</p> <p>Teach & Learn 8 synchronous hours (four virtual 2-hour modules)</p> <p>Virtual Workshops each: 1 virtual module</p>

- Part 4: Teaching a Unit – Begin to plan a unit and a lesson using the curriculum materials. Explain the purposes of different assessments and identify multiple opportunities for assessment within the curriculum. Locate and use curriculum resources to support planning.

Focus on Planning and Pacing –1 day Onsite (one 3-hour module and one 3-hour Teacher Collaboration session with three grade levels together)

- Describe how cool-downs formatively assess lesson learning goals.
- Anticipate student responses for cool-downs.
- Make connections between cool-downs and current and upcoming lessons.
- Recognize the value of using a protocol for making sense of student work.
- Adjust warm-ups and activity launches or syntheses based on class responses to a cool-down.

Teacher Collaboration Planning with all grade level groups – Afternoon Sessions

Leading IM Implementation

IM Teach and Learn Module – See description above.

This two-day learning professional learning can be participated in by leaders in two ways:

1. Join teacher learning event – Teach & Learn
2. Schedule Leader learning event – Teach & Learn – with your leader team attending.

*IM Teach & Learn Module is prerequisite for all Illustrative Mathematics workshop events.

Problem-based Learning Structures and Beliefs (1 & 2 of 6 Series)

- **Part 1: Examining Structures and Beliefs**
 - Half-day (3-hour Module Onsite)
 - Identify opportunities for students to learn mathematical ideas through the experience of solving problems.
 - Recognize how the overarching design structure plays out in the curriculum.
 - Examine the structure of a lesson and the purpose of each component.
 - Describe norms that build a positive, inclusive mathematical community.
- **Part 2: Observing in a Problem-based Classroom**
 - Half-day (3-hour Module Onsite)
 - Describe what problem-based teaching and learning looks like.
 - Recognize observable student actions during problem-based learning.
 - Connect intentional teacher moves to observable student actions.

and 3 grade-level Teacher Collaboration sessions

<p>Leaders can participate in the Teach & Learn Modules alongside their teachers.</p> <p>Leader Modules: Coaching Problem-Based Teaching & Learning – Part 1 and Part 2 (1 Day, 2 - 3 hour Modules Onsite)</p> <p>Note: Eight 3-hour modules comprise four 6-hour days. It is important to do the modules in order, but the days do not need to be consecutive. All modules in Leader Learning Series may be implemented all in year one of implementation. District Choice.</p>	
---	--

Ongoing Support Package

Package Description and Services	Pricing Information
<p><u>Ongoing Learning Workshops</u></p> <p>Focus on Mathematical Discourse 1 – 1 day Onsite (one 3-hour module and one 3-hour Teacher Collaboration session with three grade levels together)</p> <ul style="list-style-type: none"> • Practice using student thinking to drive learning. • Try the first practice from the <i>5 Practices for Productive Mathematics Discussion</i>. Anticipate student thinking, Select and sequence student work. • Plan for activity synthesis. <p>Teacher Collaboration Planning with all grade level groups – Afternoon Sessions</p> <p>Virtual 8 synchronous hours (four virtual 2-hour modules)</p> <p>Focus on Instructional Routines</p> <p>One-day (3-hour Module Onsite and one 3-hour Teacher Collaboration session with three grade levels together.)</p> <ul style="list-style-type: none"> • Summarize the structure, value, and potential purpose of several instructional routines in the curriculum. • Use the structure of an instructional routine to plan for implementation. • Connect the design of an instructional routine to the learning goals of a lesson. <p>Teacher Collaboration Planning with all grade level groups – Afternoon Sessions</p> <p>Focus on Mathematical Language Access 1</p>	<p>\$20,000 Onsite/Virtual</p> <p>per Group #25 participant max.</p>

One-day (3-hour Module Onsite and one 3-hour Teacher Collaboration session with three grade levels together.) Teachers explore Co-Craft Questions, Stronger and Clearer Each Time, Collect and Display, Three Reads (onsite only), and Discussion Supports (onsite only).

- Explain how learning mathematics is a language-demanding activity for all students.
- Describe how Mathematical Language Routines (MLRs):
 - foster mathematical understanding
 - promote language development
 - provide access to the problem
 - support collaborative work
- Prepare for the successful use of MLRs.

Teacher Collaboration Planning with all grade level groups – Afternoon Sessions

Leading IM Implementation

Problem-based Learning Structures and Beliefs (3 & 4 of 6 Series)

- **Part 3: Valuing Student Thinking**
 - Half-day 3 hour module
 - Describe structures within IM Math that can be leveraged with teachers to foster classrooms where student thinking drives the learning.
 - Recognize teacher moves that reflect a classroom where everyone is curious about each other’s thinking.
 - Prepare to coach teachers to identify promising attributes of student thinking.
- **Part 4: Enhancing Access and Challenge for All Students**
 - Half-day 3 hour module
 - Describe how the principles of Universal Design for Learning can be used as a framework for supporting access and challenge.
 - Describe how MLRs promote mathematical language use and development.

Leaders may choose to complete all leader modules in the series in the initial implementation year. Implementation is flexible.

Leader Modules: Coaching Problem-Based Teaching & Learning – Part 3 and Part 4 (1 Day, 2 - 3 hour Modules)

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p><u>Sustaining Professional Learning</u></p> <p>Focus on Teaching and Learning One-day (3-hour Module Onsite and one 3-hour Teacher Collaboration session with three grade levels together.)</p> <ul style="list-style-type: none"> ● Identify IM Math structures that inspire curiosity and invite each student into grade-level mathematics. ● Use curriculum structures to position students as authors of important mathematical ideas. ● Recognize contexts in a lesson that can be adjusted to inspire curiosity and value our students’ experiences. ● For each adjustment, identify and retain the important mathematical ideas of the lesson. <p>Teacher Collaboration Planning with all grade level groups – Afternoon Sessions</p> <p>Leaders are encouraged to participate in the Teach & Learn Modules alongside their teachers.</p> <p>Focus on Mathematical Language Access 2 One-day 3-hour Module Onsite and one 3-hour Teacher Collaboration session with three grade levels together.)</p> <ul style="list-style-type: none"> ● Teachers explore Clarify, Critique, Correct; Information Gap; Compare and Connect. <ul style="list-style-type: none"> ○ Explain how learning mathematics is a language-demanding activity for all students. ○ Describe how Mathematical Language Routines (MLRs): <ul style="list-style-type: none"> ■ foster mathematical understanding ■ promote language development ■ provide access to the problem ■ support collaborative work ○ Prepare for the successful use of MLRs. <p>Teacher Collaboration Planning with all grade level groups – Afternoon Sessions</p> <p>Focus on Mathematical Discourse 2 One-day 3-hour Module Onsite and one 3-hour Teacher collaboration session with three grade levels together.)</p> <ul style="list-style-type: none"> ● Paraphrase the key ideas of each of the 5 Practices named in the framework for productive discussions. <ul style="list-style-type: none"> ○ Explain the teacher’s role in orchestrating discussions, both in planning and during the lesson. 	<p style="text-align: center;">\$20,000 Onsite/Virtual</p> <p style="text-align: center;">per Group #25 participant max.</p>

- Give examples of how the materials support teacher planning for orchestrating discussions.
- Articulate how the framework supports student understanding through discourse.

Teacher Collaboration Planning with all grade level groups – Afternoon Sessions

Leading IM Implementation

Problem-based Learning Structures and Beliefs (5 & 6 of 6 Series)

Part 5: Coaching with Universal Design for Learning

Half -day 3 hour module

- Use the principles of Universal Design for Learning as a framework for supporting access.
- Locate resources and describe coaching moves that support teachers with providing access for students.

Part 6: Facilitating Instructional Decision-Making with IM Resources

Half-day 3 hour module

- Identify opportunities for supporting teacher learning.
- Connect opportunities for supporting teacher learning to resources that can be used during collaborative planning, ongoing professional learning, and individual coaching.
- Locate resources for supporting teachers available from IM.

Leaders may choose to complete all leader modules in the series in the initial implementation year. Implementation is flexible.

Leader Modules: Coaching Problem-Based Teaching & Learning – Part 5 and Part 6 (1 Day, 2 - 3 hour Modules)

Ongoing Support Package

Package Description and Services	Pricing Information
<p>As a result of the support in this package:</p> <ul style="list-style-type: none"> • School and system conditions for effective curriculum implementation improve • Schools reach level 3 of the Curriculum Implementation Scale <p>ACTIVITIES</p> <ul style="list-style-type: none"> • Four co-planning meetings with system leaders to ensure the summer learning experience aligns with system instructional priorities and addresses unique system context • Three-day summer learning experience with teachers and school leaders <ul style="list-style-type: none"> ○ Teachers (two days) 	<p>\$30,000 per school</p>

- Leveraging curriculum tools and components to accelerate learning, including scaffolding, meeting the needs of diverse learners, and strategic data collection
 - **Leaders (one day)**
 - Understanding key data collection embedded in curriculum structure and curricular tools to accelerate learning
- Two-day virtual new teacher catch-up learning experience (mix of synchronous and asynchronous)
 - Deep dive on the components and structure of the new curriculum and assessment with an emphasis on the content and standards in the first two units or modules
 - Unit and lesson internalization protocols
 - Examining equity connections with the new curriculum and dismantling biases that will inhibit its use
- Monthly school-based coaching with Instructional Leadership Teams (ILT) at up to 10 schools (alternating in-person and virtual)
 - Internalizing, norming around, and prioritizing implementation indicators
 - Giving effective curriculum- and content-specific feedback
 - Develop and track a school-specific theory of action for implementation, including measures of success, key leader actions, and opportunities to document progress and action steps
- Assess system conditions and recommend action steps
 - Administer Leading Educators' system conditions assessment - which tracks the presence of the conditions needed for effective curriculum implementation and professional learning in schools - at the beginning of the school year and the end of the school year
 - Present a report with the findings from the assessment and recommendations for priority conditions to address along with suggested actions
- Progress monitoring
 - Three school walkthroughs with a focus on practicing identifying strengths and challenges with implementation and generating evidence-based feedback
 - Three half-day virtual retreats with system and school leaders to formally pull up on progress and troubleshoot challenges through a synthesis of coaching, participant feedback, and school walkthrough data

DELIVERABLES

- Introductory training on curriculum for new teachers (district can use in future years)
- School-specific theories of action for implementation with progress monitoring protocols
- Systems conditions report and recommendations

INVESTMENT

The above activities, which include the dedicated capacity and expertise of a Leading Educators project team as well as operational expenses, total \$300,000 or \$30,000 per school for one content area (e.g. ELA, math, or science). Additional schools may be added in groups of 10 for maximum cost efficiency and to keep the cost per school the

same or even lower than the per school price below, but Leading Educators can provide customized price quotes for varying school numbers. Please note that event expenses such as venue space and participant food are not included and would be an additional cost.

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>As a result of this package:</p> <ul style="list-style-type: none"> ● School and system conditions for effective curriculum implementation improve ● Schools reach level 4 of the Curriculum Implementation Scale ● Leaders develop internal capacity to maintain and improve the professional learning system <p>ACTIVITIES</p> <ul style="list-style-type: none"> ● Four co-planning meetings with system leaders to ensure the summer learning experience aligns with system instructional priorities and addresses unique system context ● Three-day summer learning experience with school-based ILTs <ul style="list-style-type: none"> ○ Understanding effective professional learning and the conditions that enable it ○ Preparing to implement curriculum-specific, job-embedded professional learning in collaborative planning spaces ● Two-day virtual new teacher catch-up learning experience (mix of synchronous and asynchronous) <ul style="list-style-type: none"> ○ Deep dive on the components and structure of the new curriculum and assessment with an emphasis on the content and standards in the first two units or modules ○ Unit and lesson internalization protocols ○ Examining equity connections with the new curriculum and dismantling biases that will inhibit its use ● Design of curriculum-specific professional learning for school-based instructional leaders to deliver to teachers <ul style="list-style-type: none"> ○ Yearlong adult learning curriculum based on student-facing materials ○ Includes all slide decks, facilitator scripts, and resources for delivering learning in collaborative planning spaces with teachers ○ Monthly school-based coaching with Instructional Leadership Teams (ILT) at up to 10 schools (alternating in-person and virtual) ○ Planning and preparing to deliver school-based professional learning cycles ○ Internalizing, norming around, and prioritizing implementation indicators ○ Giving effective curriculum- and content-specific feedback 	<p>\$30,000 per school</p>

- Assess system conditions and recommend action steps
- Administer Leading Educators' system conditions assessment - which tracks the presence of the conditions needed for effective curriculum implementation and professional learning in schools - at the beginning of the school year and the end of the school year
 - Present a report with the findings from the assessment and recommendations for priority conditions to address along with suggested actions
- Progress monitoring
 - Three school walkthroughs with a focus on practicing identifying strengths and challenges with implementation and generating evidence-based feedback
 - Three half-day virtual retreats with system and school leaders to formally pull up on progress and troubleshoot challenges through a synthesis of coaching, participant feedback, and school walkthrough data

DELIVERABLES

- Introductory training on curriculum for new teachers (district can use in future years)
- School-specific theories of action for implementation with progress monitoring protocols
- Systems conditions report and recommendations
- One year's worth of job-embedded, curriculum-specific professional learning materials (slide decks, facilitator scripts, other resources)

INVESTMENT

The above activities, which include the dedicated capacity and expertise of a Leading Educators project team as well as operational expenses, a total of \$300,000 or \$30,000/per school for the support in one content area (e.g. ELA, math, or science) and an additional system fee of \$25,000 for the adult learning curriculum for one year. The district would retain editable versions of all materials needed to deliver school-based professional learning cycles and be able to share, adapt, and use them freely (except for commercial sale) in perpetuity. Additional schools may be added in groups of 10 for maximum cost efficiency and to keep the cost per school the same or even lower than the per school price below, but Leading Educators can provide customized price quotes for varying school numbers. Please note that event expenses such as venue space and participant food are not included and would be an additional cost.

Janet Pinto, janet.pinto@assistments.org

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information	
<p>Getting Started for Teachers Set your teachers up for success with ASSISTments from the start. In this package, teachers learn how to enhance the implementation of the IM curriculum with immediate student feedback and actionable data for teachers provided by ASSISTments. Teachers attend workshops to learn the basics about how ASSISTments work and how to use the data. Then they receive ongoing support via check-ins throughout the school year to support their fidelity implementation as well as additional flexible support as needed.</p> <p>This package includes a comprehensive three-hour onboarding workshop and on-demand support, ensuring a strong foundation.</p> <ul style="list-style-type: none"> • Teacher Onboarding Workshop • Workshop: Differentiating with ASSISTments Data <ul style="list-style-type: none"> ○ 75-minute interactive session for up to 20 participants per facilitator. ○ This advanced workshop is designed for teachers who are familiar with the basics of ASSISTments and are eager to enhance their skills. ○ Interpreting Assignment Reports: Learn to draw actionable conclusions from assignment data to inform your instructional decisions. ○ Implementing Data Review Routines: Establish effective routines for regularly reviewing and analyzing student data. ○ Utilizing the Content Library: Discover strategies to leverage the ASSISTments content library for providing targeted practice tailored to student needs. 	1-15 participants	\$3500
	16-50 participants	\$300 per participant
	51-75 participants	\$250 per participant

<ul style="list-style-type: none"> • Up to 10 hours of flexible support for teachers • Monthly coaching check-ins with instructional leadership to support action planning around how best to support teachers in the fidelity implementation of ASSISTments. <p><i>All packages include access to the ASSISTments Teacher Academy for any time on-demand quick bite videos.</i></p>

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>Executive Planning with district leaders (administrators, curriculum leads, etc.)</p> <p>Overview: The kickoff to implementing McGraw Hill’s Reveal Math starts with an Executive Planning Meeting. This meeting provides an opportunity for the McGraw Hill team to collaborate with district leadership to plan and address specific instructional objectives.</p> <ul style="list-style-type: none">• Discuss and outline district goals• Plan specific session agendas to best facilitate district professional learning sessions <p>Program Implementation – Virtual or On-Site</p> <ul style="list-style-type: none">• Two 90-minute virtual sessions or a combined three-hour on-site session<ul style="list-style-type: none">○ Sessions organized by grade bands. Grade-level specific sessions offered based on availability• Goal: To ensure teachers gain the knowledge and skills necessary to begin using McGraw Hill’s Reveal Math immediately in their classrooms, including a comprehensive understanding of both print and digital features.• Outcomes<ul style="list-style-type: none">○ By the end of the session, participants will be able to:<ul style="list-style-type: none">■ Navigate print and digital resources■ Understand lesson structure and planning options■ Apply differentiated instruction options within the core program■ Administer progress monitoring and assessment options <p>Reveal Math 101 Implementation Training (teachers and leaders)</p>	<p>\$10,500 per school (up to 35 participants)</p>

- One 90-minute session
 - Introduction to the pedagogical foundations of Reveal Math through purposeful navigation of print and digital resources.
 - Participants will explore instructional resources at unit and lesson levels, engage with tiered resources for differentiation, introduction to digital resources.
- **Goal:** Equip teachers with the knowledge and skills to begin using the resources immediately in their classroom.

Reveal Math 102 Implementation Training (teachers and leaders)

- One 90-minute session (Prerequisite: Reveal Math 101 Implementation Training)
 - Continuation from Reveal Math 101, deeper dive into digital resources and assessments.
 - Participants will explore formative and summative assessments, integration of digital resources for data-driven instructional decisions.
- **Goal:** Enable teachers to efficiently integrate Reveal Math’s digital resources and make impactful instructional decisions.

Instructional Coach Capacity-Building Training – Virtual or On-Site

- Build instructional capacity through District/Campus Instructional Coaches to ensure implementation fidelity and teacher success.
- Activities
 - Participate in Reveal Math 101 and 102 Implementation Training
 - Support classroom teachers with lesson structure/pathways and planning
 - Topics include program overview, assessment, data reporting, professional development resources, and supporting teachers during teacher collaboration.

Administrator Training – Virtual

Objective: Build a high-level understanding of Reveal Math for administrators, focusing on key program elements for successful implementation.

Activities

- Overview of data and reporting tools generated through student assessment
- Understand key elements for successful implementation

Outcomes Participants will understand:

- K-12 Reveal Math’s structure and pedagogy

<ul style="list-style-type: none"> • Key elements to ensure successful implementation • Data and reporting generated by student assessments <p>Mid-Year & End-of-Year Meetings</p> <p>Objective</p> <ul style="list-style-type: none"> • Determine the impact of core instructional resources and define further professional development needs. <p>Activities</p> <ul style="list-style-type: none"> • Meetings between McGraw Hill and district leadership • Explore the need for supplemental materials to support targeted student populations <p>Scheduling Parameters</p> <p>On-Site Professional Learning Guidelines</p> <ul style="list-style-type: none"> • Sessions with voluntary attendance without required registration will be conducted virtually • Minimum of 18 participants must be registered and confirmed 10 business days before the training date, or the session will be conducted virtually • Multiple on-site sessions must be scheduled on consecutive days with morning and afternoon sessions • Recommended ratio of teachers to trainer is 35:1, with flexibility based on district needs • No facilitation of teacher planning time post-training <p>Virtual Professional Learning Guidelines</p> <ul style="list-style-type: none"> • Sessions scheduled for less than two hours will be virtual • Minimum of 10 registered participants for virtual trainings • Districts must set up webinar links and send them to the Sales Rep <p>Cost of Services Cost includes 3 onsite sessions for a cadre of up to 35 participants</p>	
---	--

Ongoing Support Package

Package Description and Services	Pricing Information
<p>Objectives</p> <ul style="list-style-type: none"> • Sustain and enhance the implementation of McGraw Hill's Reveal Math. • Improve instructional practices through continuous learning and data-informed instruction. • Address unfinished learning and provide additional curricular supports. 	<p>\$15,000 per school</p>

- Enhance teacher collaboration and provide essential support for new teachers and leaders.
- Offer comprehensive coaching and feedback for both teachers and leaders.

Recommendation of at least 3 topics selected by the district align with district initiatives.

Topics that may be collaboratively designed with district leaders:

Continuous Learning and Improvement for Educators

- **Strategic Data-Informed Instruction**
 - Utilize student performance data to inform and tailor instruction.
 - Conduct regular data analysis sessions to identify areas for improvement and celebrate successes.
- **Addressing Unfinished Learning**
 - Implement targeted interventions and support for students with unfinished learning.
 - Use formative assessments to continuously monitor student progress and adjust instruction accordingly.
- **Additional Curricular Supports**
 - Provide supplemental resources and materials to support diverse learners.
 - Offer professional development sessions focused on integrating additional curricular supports into daily instruction.
- **Enhancing Teacher Collaboration**
 - Facilitate regular teacher collaboration and collaborative planning sessions.
 - Encourage the sharing of best practices and strategies among teachers.
- **Support in Curriculum Implementation Essentials for New Teachers/Leaders**
 - Offer onboarding sessions for new teachers and leaders to familiarize them with the curriculum.
 - Provide ongoing support and mentorship to ensure successful integration into the school system.

Teacher and Leader Coaching

- **Familiarization with Curriculum Components and Structure**
 - Conduct workshops and training sessions to deepen understanding of the curriculum components.
 - Provide comprehensive guides and resources to support curriculum implementation.
- **Walkthroughs and Observation Look Fors**
 - Develop a checklist of key elements to observe during classroom walkthroughs.
- **Action Planning (Both Long and Short-Term)**
 - Assist educators in creating both long-term and short-term action plans aligned with curriculum goals.
 - Review and adjust action plans regularly based on student performance and instructional needs.
- **Leader Check-Ins**
 - Schedule regular check-ins with school and system leaders to monitor implementation progress.

- Provide leaders with data and insights to support decision-making and continuous improvement.

Cost of Services

Cost includes 3 onsite sessions for a cadre of up to 35 participants + 3 virtual leader check-ins. Additional topics are available to add. Each topic would be \$3500/cadre.

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>Objectives</p> <ul style="list-style-type: none"> ● Establish and sustain effective professional learning structures. ● Promote continuous growth, collaboration, and improvement among educators. ● Provide guidance and coaching for planning and executing professional learning. ● Ensure professional learning is relevant, impactful, ongoing, and job embedded. <p>Recommendation of at least 3 topics selected by the district align with district initiatives.</p> <p>Topics that may be collaboratively designed with district leaders:</p> <p>Leader Coaching</p> <ul style="list-style-type: none"> ● Planning Sessions <ul style="list-style-type: none"> ○ Facilitate planning sessions with leaders to design professional learning agendas and activities. ○ Focus on aligning professional learning with school goals and student needs. ● Observations <ul style="list-style-type: none"> ○ Guide leaders in conducting classroom observations to gather data on instructional practices. ○ Use observation data to inform professional learning priorities and coaching plans. <p>Leveraging Teacher Leaders</p> <ul style="list-style-type: none"> ● Best Practices <ul style="list-style-type: none"> ○ Identify and train teacher leaders to support their peers in implementing best practices. ○ Provide ongoing support and resources to teacher leaders to enhance their coaching skills. ● Building Capacity <ul style="list-style-type: none"> ○ Develop teacher leaders' capacity to lead teacher collaboration and collaborative planning sessions. ○ Encourage teacher leaders to share successful strategies and practices with their colleagues. 	<p>\$15,000 per school</p>

Establishing Effective Teacher Collaboration

- **Support Structures**
 - Create structures and schedules that facilitate regular and meaningful teacher collaboration.
 - Use protocols and frameworks to guide collaborative discussions and activities.
- **Collaboration Models**
 - Introduce various models of teacher collaboration, such as co-teaching, peer observations, and team planning.
 - Provide examples and case studies of effective collaboration practices.

Cost of Services

Cost includes 3 onsite sessions for a cadre of up to 35 participants + 3 virtual leader check-ins. Additional topics are available to add. Each topic would be \$3500/cadre.

*Cost may incur additional fees if more than said number of participants

We can help build leaders’ capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning and, the effectiveness of the implementation of the OpenSci Ed Curriculum and create a plan for addressing professional learning needs. Adoption Phase Learning Walks are typically implemented in the Fall, Winter, and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need. 	<p>\$16,000 onsite/ \$14,000 virtual per school</p>

Establishing and Sustaining Professional Learning Structures Package

Package Description and Services	Pricing Information
<p>Attuned will partner with schools and systems in their fourth year of implementation and beyond of the Bayou Bridges curriculum in grades K-8, focusing on establishing and sustaining effective professional learning structures that promote continuous growth, collaboration, and improvement. The package includes guidance and coaching to carefully plan and execute professional learning, ensuring educators receive relevant, impactful, ongoing, and job-embedded professional learning. Furthermore, Attuned will build the capacity of leaders to ensure that school and classroom-level change is happening in social studies by building the technical skills, and</p>	<p>\$29,880 per school</p>

adaptive leadership skills of social studies/humanities leader(s) to champion the school's social studies vision, oversee the implementation of the Bayou Bridges curriculum, and improve overall coherence around social studies. Specifically, Attuned's support across role types will include:

- Five bi-monthly meetings (virtual) with the project leads to manage the project, which includes:
 - Identifying deliverables, roles, and key dates
 - Aligning on school-level goals and plans for professional development, progress monitoring, and walkthroughs
 - Summarizing and debriefing each round of progress monitoring data
 - Surfacing and problem-solving potential roadblocks during implementation
 - Providing ongoing thought partnership
- Designing and co-facilitating three meetings of the school's Steering Committee ("SteerCo") or instructional leadership team (e.g. principal, assistant principal, mentor teacher, coaches, etc.) to:
 - Build shared understanding and ownership of the state of social studies curriculum implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Make adjustments to social studies implementation to accelerate the impact
 - Celebrate wins, identify lessons learned, and prepare to communicate with the broader school community
 - Refresh the social studies priorities for the next year, including the generation of key deliverables and initiative measures
- Conducting three rounds of social studies walkthroughs to collect data on Bayou Bridges implementation to:
 - Identify professional learning needs and school-specific supports
 - Monitor progress toward measures of success
 - Provide on-site debrief and action planning with school staff members
- Design and co-facilitate up to 2 hours of professional learning, audience TBD (e.g., school leaders, coaches, teachers, etc) to:
 - Celebrate wins, identify lessons learned, and ensure shared visibility into the progress of social studies implementation
 - Present and analyze high-leverage qualitative and quantitative data, including stakeholder perspectives
 - Facilitate purposeful reflection and action planning at the learning community and school level to drive impact in response to data

Adoption and Initial Implementation Package

Package Description and Services	Pricing Information
<p>In-Person Launch Workshop: Launching Bayou Bridges Curriculum (6 hours, 25 teachers and leaders) This workshop is designed to serve as your learning community’s introduction to the Bayou Bridges Curriculum. Participants will have the opportunity to dive into the curriculum from both a teacher and student perspective. The group will work together to develop comfort with the design and structure of curricular resources, and confidence in planning effectively.</p> <p>1:1 Virtual Coaching: Bayou Bridges Leader Coaching (30-minute sessions, 3-month coaching cycle, 5 District and School Leaders) BetterLesson instructional coaching is tailored to meet the professional learning needs of schools and districts, with a focus on student work analysis and modeling/norming using the rubrics. Grounded in the principles of action research and job-embedded best practices, our coaching methodology provides a highly personalized and differentiated approach for each participant, including alignment with the needs of the Bayou Bridges curriculum.</p> <p>Learning Walks: Bayou Bridges Learning Walk (6 hours, 5 District and School Leaders) BetterLesson believes that school and district leaders are first and foremost instructional leaders, investing in people and systems to improve learning opportunities and outcomes for students. Our goal is to provide leaders with processes, tools, and support for making organizational change and improving the learning of the Bayou Bridges Curriculum. We can help build leaders’ capacity in instructional leadership through a Learning Walk, a non-evaluative process used by leaders to assess the quality of student learning and, the effectiveness of the implementation of the Bayou Bridges Curriculum and create a plan for addressing professional learning needs.</p>	\$19,000 per school

Adoption Phase Learning Walks are typically implemented in the Fall, Winter, and Spring to assess progress and identify patterns and trends of curriculum implementation. District and school leaders can decide to reduce or increase the number of Learning Walks based on need.
