* Prices above do not include shipping and handling.

TECHNOLOGY SPECIFICATIONS

Technology specifications refer to the minimal technical requirements needed by a school or school district in order to adequately access and implement the instructional materials in the manner in which the publisher intended. The Louisiana Department of Education (LDOE) is committed to supporting districts in achieving technology readiness goals in all schools across the state. Skillful coordination and planning are required to ensure students and teachers can access high quality electronic instructional materials. Alignment between the technical specifications and local capacity supports the local allocation of resources in ways that ensure students have access to high-quality instructional materials.

Instructions: Complete this form and save in the following filename format: **6_VendorName_TechSpecs.doc/pdf**

For document 6, insert your company name, and leave the file named as TechSpecs, then save in either word or pdf file format.

Upload or email this file as part of your IMR submission.

Sample technical specification components	Publisher technical specifications
Device required (e.g., Desktop, Laptop, Tablet)	Device connected to the Internet with an up-to-date Internet Browser (PC, Tablet, Mobile device)
Operating System (Windows/Mac)	FSP products are cloud-based and support both Windows and Mac using an up-to-date Internet Browser
Memory (RAM) (e.g., 4GB)	RAM needs to support a standard Internet Browser
Hard Drive (e.g., 160GB)	No data is saved on the hard drives – product is cloud-based
