Illustrative Mathematics – 2024/2025 Pricing IM K-5

Kendall Hunt’s Illustrative Mathematics K-5 Mathematics curriculum is an Open Educational Resources (OER) and are free to download and use with a CC-BY license. Cost of this program is limited to printed teacher and student material as well as Professional learning opportunities.

Teacher Digital Access: Kendall Hunt has partnered with Illustrative Mathematics to provide the ONLY FREE, web based IM Certified™ K-12 math curriculum available at im.kendallhunt.com. There are no costs or provisions for the online access to this Open Educational Resource (OER.) Students do not need to log in to access the content and digital manipulatives. Teachers are required to verify their educator status and log in to maintain the integrity of the curriculum. Our platform is web based so it is operating system and device agnostic compatible with multiple platforms; Mac, Chromebooks, and PC operating systems. Up-to-date versions of Chrome, Firefox, Safari, Internet Explorer, and Edge browsers can be used.

Teacher Print Materials: Teacher materials are printed in the same full color and high quality stock, spiral binding to make them easier for teachers to use. The teacher guide is a set of 4 volumes to match the student workbooks and includes lesson-level supports for differentiation, an overview of the progression of academic language provided for each instructional unit, lesson learning goals that highlight the language demands of the lesson, lesson plans, and more. The material is separated into multiple volumes to make the 2500+ pages of content and support per edition more manageable. Kendall Hunt also offers printed Spanish teacher materials for grades K-5. Teacher Resource Copy Masters are available in shrink-wrap packs (single sided,) 3-hole drilled for use in binders to match the contents of each teacher guide volumes. Teacher Resource Pack includes all resources teachers would want to reproduce, examples listed below:

- Student Facing Cool Downs
- Student Facing End-of-Unit Assessments
- Student Facing Checkpoints
- Lesson Copy Masters
- Student Facing Center Materials
- Teacher Facing Monitoring Sheet

Student Print Materials: Kendall Hunt offers high-quality print editions for purchase. IM is a ‘hands on’ program where the students are actively learning the math while ‘doing the work.’ The student workbooks are meant to be a journal that the student can use for reviewing the math as well as the textbook. There are prompts for a written reflection as part of a lesson synthesis in addition to the carefully selected practice problems. It is important that each student have the opportunity to see their work, and use it as a study aid for self-assessment and review. Student workbooks are designed to be consumable and are printed in full color on high quality paper with durable covers. Print student workbooks are detailed below and designed to match the IM.KendallHunt.com website. The material is separated into multiple volumes to make the 1000+ pages of content and activities per edition more manageable.

Manipulative Kits: Kendall Hunt offers Manipulative Kits for purchase. Since this is a hands-on “math in the real world” program, there are many everyday items needed for the lessons. You can find a materials list in the preparation notes for each lesson. Each Kit is designed to serve about 30 students and are sold 1 per teacher. The grade level kits include both consumable and non-consumable items. Each Kit comes in a plastic tub to be used for storage. The contents for each grade level Kit is found below.

TECHNOLOGY SPECIFICATIONS

Technology specifications refer to the minimal technical requirements needed by a school or school district in order to adequately access and implement the instructional materials in the manner in which the publisher intended. The Louisiana Department of Education (LDOE) is committed to supporting districts in achieving technology readiness goals in all schools across the state. Skillful coordination and planning are required to ensure students and teachers can access high quality electronic instructional materials. Alignment between the technical specifications and local capacity supports the local allocation of resources in ways that ensure students have access to high-quality instructional materials.
