STATUS CHECK: SET YOUR OWN QUESTION

CUSTOMIZATION

Customize Questions & Responses:

Are you safe or in danger?

Do you have injuries?

Are you missing students?

Are you available to help?

Are you at the rally point?

The image shows a customization interface for a mobile app. On the left, a 'MOBILE APP SCREEN' section allows users to edit the 'Message in Panic Button App'. It includes a text input field containing 'Are you safe or in danger?' with a character count of '27 of 256 characters'. Above the input are buttons for '+ Campus/Building', '+ Employee', '+ Time', and a 'RESET' button. Below the input is the 'Status Response Options' section, which has three rows. Each row consists of a toggle switch (all are turned on), a colored button (red for 'IN DANGER', yellow for 'NEED SOMETHING', green for 'SAFE'), and a text input field for the response text. The character counts for these responses are '9 of 30 characters', '14 of 30 characters', and '4 of 30 characters' respectively. On the right, a smartphone displays the resulting mobile app screen, which shows the title 'Status Check', the question 'Are you safe or in danger?', and the three response buttons: 'IN DANGER' (red), 'NEED SOMETHING' (yellow), and 'SAFE' (green).

IMPROVED USER MANAGEMENT

Problem:

Staff come and go. It's critical that the right people have access to Panic Button

Solution:

Bulk user management at the District level (as well as Campus)

Ability to schedule automated load processing (daily, weekly)

Bulk management of Panic Button Auditors

IMPROVED USER MANAGEMENT

Excel spreadsheet titled "PB User File - Excel" showing a table with columns: Email Address, First Name, Last Name, Title. The data includes users like Laura Costello (PM), Annie Silver (Teacher), Sarah Mae (Teacher), and Andrew Lamison (Superinte).

	A	B	C	D
	Email Address	First Name	Last Name	Title
1				
2	lcostello@ravemobilesafety.com	Laura	Costello	PM
3	asilver@gmail.com	Annie	Silver	Teacher
4	smae@gmail.com	Sarah	Mae	Teacher
5	alamison@gmail.com	Andrew	Lamison	Superinte
6				

Excel spreadsheet titled "PB Mapping File - Excel" showing a table with columns: Email Address, Campus, Groups. The data maps email addresses to specific campuses and user groups.

	A	B	C
	Email Address	Campus	Groups

IN-APP CONTENT DIRECTORY

The screenshot displays the RAVEFacility mobile application interface. At the top, the header shows the RAVEFacility logo and user information: "Hi, raveqatest5@gmail.com | Log Out". Below the header is a navigation bar with icons for "Campuses", "People", "Reports", "Org Settings", "Rave Panic Button", and "Help". The main content area is titled "Edit Garden Spot High School" and features a horizontal menu with buttons for "Status", "Basic Info", "Map", "Buildings", "People", "Resources", and "911 Centers". The "Resources" button is highlighted with a blue callout box. Below the menu, there are tabs for "Mobile App Resources" and "Public Safety Resources", and a green "ADD A RESOURCE" button. A table lists resources with columns for Name, Type, and Action.

Name	Type	Action
Campus safety plan	Document	
Campus map	Web link	
Fire drill instructions	Web link	
Run, hide, fight	Document	

- Share resource links and documents with staff within the app
- Staff can download for offline access

LOUISIANA PANIC BUTTON

VIDEO: WHAT IS THE PANIC BUTTON?

Panic Button and Louisiana

The Rave Panic Button alerts authorities to an active shooter, a medical emergency, a fire, or other crisis. The app simultaneously sends out a notification to other teachers and staff on campus as well. This reduces the time it takes for staff to implement emergency response.

The Governor's Office and Louisiana State Police now offers the Rave Panic Button to all K-12 districts and schools across the state, as well as a companion application for 9-1-1 Centers. Please complete the form below to strengthen schools safety, security and preparedness efforts.

If you have already started building out your Panic Button profile and need help or have a question, please send an email to techsupport@ravemobilesafety.com instead of completing the form.
