

# Zoom Meeting Preparation

- Please make sure your phone or computer is muted to minimize background noise.
  - To do this, hover over the bottom left-hand side of your screen and click “Mute.”

- Please make sure you have turned off your camera to save bandwidth and prevent any connectivity issues.
  - To do this, hover over the bottom left-hand side of your screen and click “Stop Video.”

- Please submit questions during the presentation in the “Chat” function located on the bottom of your screen.

If you require an interpreter or have other accessibility needs for future LDOE meetings, please contact [LDOEcommunications@la.gov](mailto:LDOEcommunications@la.gov).

# Safe and Healthy Schools Community of Practice Call

September 26, 2024

# Special Transportation Training Opportunity

## Register for Child Passenger Safety on School Bus Training

- School systems may register 4 participants for a session.
- School systems are asked to send one transportation administrator, special education administration, occupational therapist and physical therapist.
- Sessions are limited to 20 registrants per session and will be closed when maximum capacity is reached.
- All sessions will be held from 8 a.m. - 4 p.m.

Contact [healthyschools@la.gov](mailto:healthyschools@la.gov) for more information

# Supporting Student Well-being

Multi-tiered systems of  
support (MTSS)

Gwen Murray, PhD

# Overview

▶▶▶▶▶	Build the “Menu”	10
▶▶▶▶▶	Assess the Program	12

# What is MTSS?

## Multi-Tiered System of Supports (MTSS):

- an evidence-based framework
- provides targeted support to students
- integrates multiple levels of support to address students' needs
- identifies struggling students early
- provides tiered interventions at increasing intensity levels

Retrieved from the Center on Multi-Tiered Systems of Supports within the American Institutes for Research.

# Key Elements of MTSS

01

**Prevention:** Integrating supports into teaching and learning; focus on safe and supportive learning environment

02

**Screening:** Identifying students in need of intervention

03

**Data-Based Decision Making:** Using student data to determine appropriate supports

04

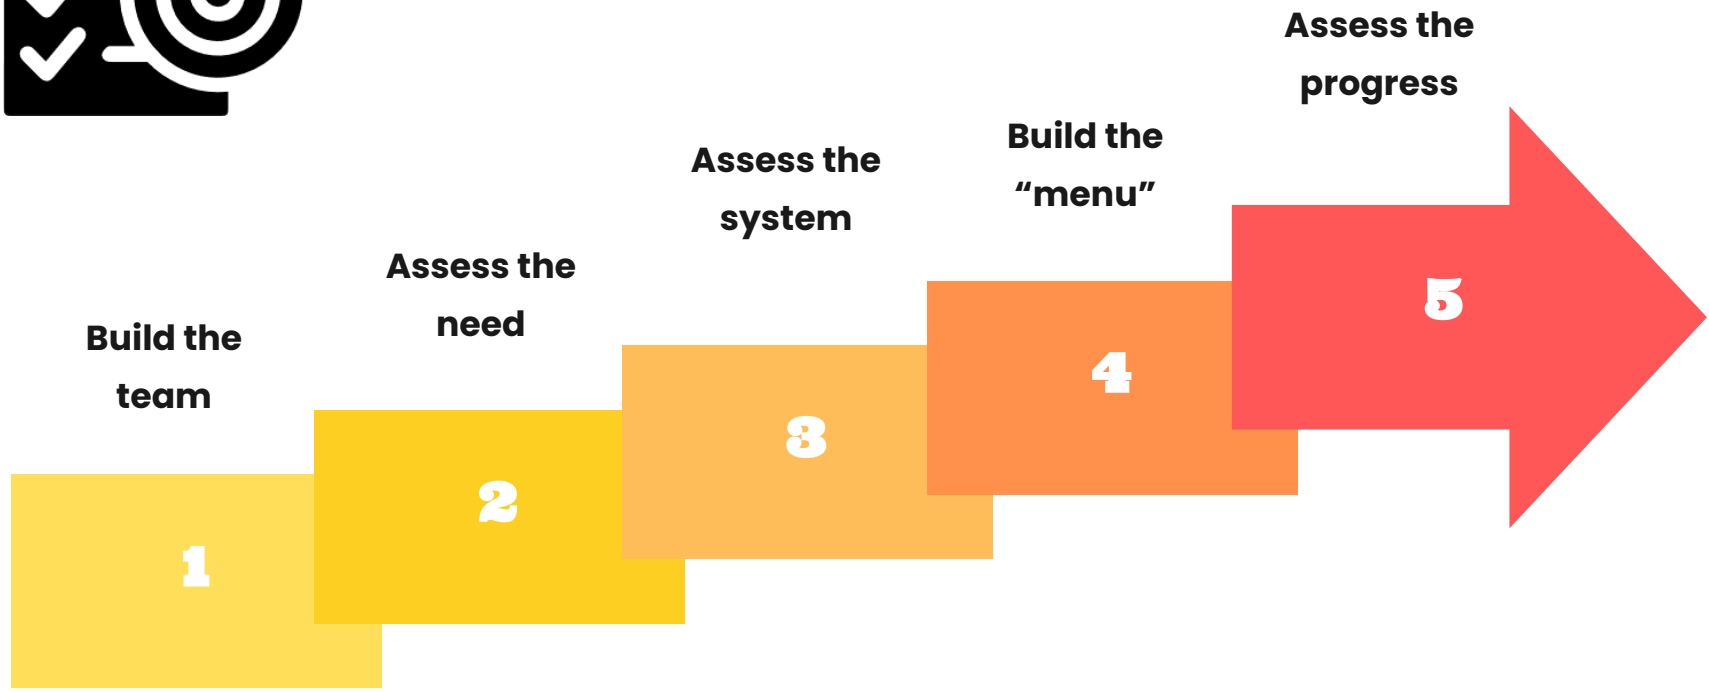

**Progress Monitoring:** Evaluating student responsiveness to strategic supports and interventions

# **FIVE KEY STEPS**

## Jumpstart MTSS

# Build the Team

Behavioral health is one component of coordinated school health, which “improves students’ health and their capacity to learn through the support of families, communities, and schools working together” (LDOE).

**Multidisciplinary teams:** individuals with different roles and expertise

## Questions

- Who are essential members of the team?
- When will the team meet and with what frequency?
- Can you embed these meetings into an existing meeting (PLCs, SBLC, Wellness, etc.)?
- What data will you use?
- Who will analyze data?
- Who is primarily responsible for carrying out interventions (e.g., interventionists, counselors, teachers)?

# Assess the System

## Current System

- What supports and interventions are already in place?
- Who delivers services or provides interventions?

Tier	<b>Screener / Data</b> What instrument will you use to assess student needs?	<b>Personnel / Providers</b> Who is available to provide services? Will you refer out for community-based services or provide them in-school? Who can run groups? Who can administer interventions?	<b>Possible Therapeutic Interventions</b> What therapies or services can you offer students once risk is identified? <b>What are you already doing and who is doing it?</b>	<b>Other Interventions</b> What other non-therapeutic interventions or strategies can you provide (i.e., check-in check-out; social skill-building; behavior support plans; individual incentives; lunch bunch)
1				
2				
3				
<b>Proactive Practices</b> What universal strategies and interventions do you use (i.e., SEL curriculum; classroom circles; respectful redirection & restorative justice; PBIS; scheduled family outreach, etc.)?				

# Assess the System

- What data are we collecting and how does it inform decision-making?
- What are the parameters for tiering students
- Does a committee routinely meet to review data and make recommendations to address student needs? Are meetings effective?

## Tier 1:

### Universal

- Clear ownership & leadership
- Routinize data analysis
- Strategic plan
- Universal screener

## Tier 2:

### Targeted

- Tier 2 screening
- Increased monitoring
- Identifying patterns
- Determining appropriate interventions
- Determining need for intensive intervention

## Tier 3:

### Intensive

- Determine eligibility
- Increased monitoring

# Build the “Menu”

- Do you have a service continuum or “menu” of possible interventions and supports?
- Are school personnel’s training, strengths, and skills fully utilized?

# Assess the Progress

Checklist Item	When	Planning Considerations
Set measurable goals for student mental health outcomes	At intake, beginning of services (or beginning of groups)	<ul style="list-style-type: none"><li>• Who is responsible for writing school or individual goals?</li><li>• Where will goals be recorded?</li></ul>
Develop a system for ongoing monitoring of student progress	At beginning of year, prior to screening	<ul style="list-style-type: none"><li>• Where will progress monitoring occur? (i.e. individual case notes? Content management system? Shared drive?)</li></ul>
Regularly review and adjust interventions as needed	Set fixed period, i.e. each 9 weeks	<ul style="list-style-type: none"><li>• What is the frequency for progress monitoring?</li><li>• Is there a difference between acute or emergent needs or longer-term treatment plans?</li><li>• What needs to happen for students returning to campus from hospitalization?</li></ul>
Document student progress and intervention outcomes	As determined by provider or support team	<ul style="list-style-type: none"><li>• How will you determine the effectiveness of an intervention? (Student-self report; positive behavioral change; case notes; observation)</li><li>• Who will review data to make decisions whether to continue, discontinue, or modify interventions?</li></ul>
Involve students and parents and families in progress discussions	Set fixed period, i.e. each 9 weeks; as needed	<ul style="list-style-type: none"><li>• How will you communicate progress to key stakeholders?</li><li>• What confidentiality concerns do you need to maintain when communicating with families?</li></ul>
