

STEM PATHWAY BRIEF

LSU BIOMEDICAL SCIENCES

OVERVIEW

The LSU Biomedical Science Certification Pathway immerses students in the rapidly advancing world of biomedicine. Students are exposed to the myriad of careers in biomedicine, focusing on the health of both animals and humans. This pathway is designed to cultivate the skills and knowledge that will prepare students for immediate workforce entry into biomedicine-related fields or the pursuit of pre-med or other science-related degrees in college. Pathway coursework provides students with authentic opportunities to engage with their community through action research, internships, and guest speakers. Through careful and intentional exposure to scientific writing, presentations, and hands-on team projects, students build critical scientific literacy skills and mature their oral and written communication skills to prepare them for entry into a 21st century biomedical workplace in industry, healthcare, environmental applications, or academia.

- *Emergency Medical Responder (EMR) **Basic***
- *Certified Nursing Aide (CNA) **Basic***
- *Emergency Medical Technician (EMT) **Advanced***

STEM DIPLOMA SEALS

GOLD SEAL

Students who successfully complete the four required courses and four courses from the Additional Course list will earn a Gold STEM Diploma Seal.

SILVER SEAL

Students who successfully complete the four required courses will earn a Silver STEM Diploma Seal.
