

STEM PATHWAY BRIEF

CYBERSECURITY

OVERVIEW

The Cybersecurity pathway allows students to engage in a program of study that combines computer science, engineering and mathematics through hands-on projects and interaction with industry professionals. Students will debate the tradeoffs of privacy and security when interacting with their increasingly digital presence; they will discuss the ethics of advancements in robotics and artificial intelligence as they consider the value of true autonomous devices; and in a quest to design and iterate better devices, they will build complex systems capable of multiple sensory inputs and advanced logic structures. Pathway coursework prepares TOPS University and Jump Start TOPS Tech diploma-seeking students to compete in the 21st century by immersing them in the fundamentals of cyber as well as its impacts and applications in the workplace.

STEM DIPLOMA SEALS

GOLD SEAL

Students will earn a Gold STEM Diploma Seal by satisfying the requirements for a Silver STEM Diploma Seal and completing four additional courses from the Qualifying Course list.

SILVER SEAL

Students who successfully complete four of the required courses will earn a Silver STEM Diploma Seal.

Required Courses (4)			
Course Title	Course Code	Carnegie Credits	5-Point Scale
Cyber Literacy (NICERC Partnership)	040221	1	
Cyber Literacy II (NICERC Partnership)	040222	1	
Cyber Science (NICERC Partnership)	040219	1	
Computer Science I OR	061102	1	
AP Computer Science A OR	061175	1	✓
