

Louisiana Leader Rubric

Released April 2024

The *Louisiana Leader Rubric* was designed through a partnership between the Louisiana Department of Education (LDOE) and National Institute for Excellence in Teaching (NIET) to directly support improvements in school leadership. By clearly defining excellence in school leadership, this rubric supports school leaders in building essential mindsets and skills that elevate their practice, advance instruction, and improve outcomes for all students. The rubric is grounded in the NIET *Principal Standards Rubric*, which is based on school leadership research and experience across numerous states and is used by leaders of schools ranging from urban to rural and spanning all grade levels and school types. The rubric provides school leaders with a common understanding and language for best practices in school leadership represented in six key domains, as shown in the overview below. Within each domain, performance indicators are listed with bulleted descriptors and a rubric specifying three performance levels for measuring actual leader performance. Performance definitions are provided at levels 5, 3, and 1, but raters can also score at levels 2 or 4 based on the consistency of the evaluatee's actions related to the descriptors and specific evidence to merit the rating. Leaders earn a score of 1, 2, 3, 4, or 5 for each indicator. The domains and their research-based performance indicators serve as a tool for leadership coaching, support, and evaluation.

The *Louisiana Leader Rubric* embeds the school improvement best practices of instructional leadership teams (ILT), teacher collaboration (TC), and career pipeline (CP) support. Additionally, references to instructional practice and strategies embedded within the rubric are rooted in the use of high-quality instructional materials (HQIM), as LDOE concurs with research to identify these materials to be most aligned to state standards and assessments.

DEFINITIONS

Acceleration - a just-in-time tutoring model that is focused on identifying, celebrating, and building upon the assets students bring to the learning experience. Acceleration means connecting unfinished learning in the context of new learning, integrating new information and the needed prior knowledge. Acceleration is:

- support which builds students’ knowledge and skills required to be successful in core instruction within the context of a high-quality curriculum;
- a type of intervention;
- proactive, deliberate action planning; and
- targeted and individualized for students based on their specific needs as gathered from diagnostic and formative data collected as students engage in the work of the curriculum.

High-quality instructional materials (HQIM) - HQIM is fully aligned to state content standards, or national or local when state standards are not provided – what students are expected to learn and be able to do at the end of each grade level or course – and builds content-specific knowledge and skills. HQIM provides support for all learners and high-quality resources for teachers to support the delivery of meaningful instruction every day, including

- effective lesson structures and strategies;
- appropriate pacing guidance;
- meaningful, connected assessments; and
- implementation guidance and resources.

Expectations (also known as Success Criteria) - refers to a concrete learning performance: something students will say, do, or make to indicate they are moving towards the learning goal/objective.

School Leaders - encompasses assistant principals, deans, master teachers, content leaders, instructional coaches, and teacher leaders.

System/System Level - is formerly used as “district.”
