SUBJECT: **Update to the FY 2021-2022 Minimum Foundation Program (MFP) Allocation**

In the spring each year, current year MFP allocations are recalculated based on the following factors:

- 1) **Mid-Year Adjustments for Student Enrollment Changes**
Revisions to the MFP allocation amounts as a result of the Mid-Year Adjustments are incorporated into the March 2022 MFP payments. Mid-Year adjustments to funding occur during the fiscal year based on student membership counts taken in October and February as required by the 2021-22 MFP Resolution. School systems and schools receive an adjustment consisting of the per pupil amount(s) times the number of students gained or lost as calculated for the October 1, 2021 Mid-Year Adjustment, and one-half of the base per pupil amount(s) times the number of students gained or lost as calculated for the February 1, 2022 Mid-Year Adjustment.
- 2) **Update to Final Local Revenue Representation Per Pupil Amounts for Charter Schools**
The update from Initial to Final Charter Per Pupil amounts and thus the local revenue representation allocation amounts have been completed and incorporated into the March 2022 payments. The local revenue representation per pupil amount for charter schools is required to be updated from the initial to the final amount and used in the current year MFP formula allocations according to Louisiana Revised Statute 17:3995. The local revenue

representation amounts have been updated to the final calculation using two data sets: 1) actual local revenues received during the prior fiscal year as reported in each district's FY2020-21 Annual Financial Report (AFR), and 2) the official MFP October 1, 2021 student counts. Note that the State share per pupil remains the same and continues to be based on the per pupil amount included in the FY2021-22 Budget Letter (Circular No. 1165) in effect since July 2021.
