

Important News for **NONPUBLIC SCHOOLS**

September 23, 2021

Dear Colleagues,

We the People of the United States, in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America.

I share those important words with you today in recognition of Constitution Week that is presently ongoing across America. One can see, through the passionate words of the Preamble, the desires in the hearts of our Founding Fathers. Their hope was to create a government that could long endure and lift citizens in their pursuits of happiness — and they have done just that. Our story is one of struggle and success and, despite her imperfection, there's no place I'd rather call home than the United States of America.

As educators, we can meet the obligation of the Constitution in many ways, such as simply sharing the primary document with our students. I've attached it here with a link to [the National Constitution Center](#).

For over two centuries, countless Americans have sought to defend, embrace, and protect the Constitution of the United States – we must do our part as well to secure our Democratic Republic. In the words of President Ronald Reagan, “Freedom is a fragile thing and it's never more than one generation away from extinction. It is not ours by way of inheritance; it must be fought for and defended constantly by each generation, for it comes only once to a people.”

Thanks for all you do. Despite so many challenges, our educators continue to meet the moment. Please remain optimistic; the students you serve need you. So does the State of Louisiana and the United States of America.

Best,

Dr. Cade Brumley
State Superintendent of Education

Hurricane IDA Updates

Displaced Students

- Do not exit any students that have been displaced until you have been able to confirm if any students have left their system. We will verify any duplicate enrollments within the quarter 2 enrollment verification phase (12/1-12/3 for LSP and 11/3 - 11/5 for SCP).
- If a student has been displaced due to Hurricane Ida, and they will be returning to your school prior to the first date of the Quarter 2 enrollment verification date of 12/1 for LSP and 11/3 for SCP, please keep them on your roster unless they have been a confirmed drop.
- If the student does not intend to return to your school by the first date of the Quarter 2 verification date:
- Please contact the family to see if they would like to request a transfer to another participating scholarship school. Follow the student transfer process outlined below.
- If the family does not wish to transfer the student and will not be returning to your school prior to the Quarter 2 date, you may drop the student following the procedure below.
- If the family is experiencing a displacement that will likely continue past the Quarter 2 enrollment verification window, please contact your Portfolio Opportunities point of contact with the details of the situation and they can make a determination of if the student is able to maintain their scholarship for the remainder of the year.

Student Transfer Process

- Transfer [Forms](#) must be completed and emailed to studentscholarships@la.gov. Please allow 5 business days for confirmation of processing before contacting studentscholarships@la.gov with questions. Transfers are only allowed to schools that meet accountability standards and who have Department approved available scholarship seats.

Student Drop Process

- When requesting to drop a student, please submit one of the following documents in order for the request to be approved.
- Documentation in writing from the parent that their student no longer wishes to participate in the scholarship program OR
- Attendance documentation indicating five consecutive days of absence from the beginning of the school year. Quarantine would NOT count as an absence OR

LEAP 2025

- September 7-October 1: School systems need to indicate their selection for one of two LEAP fall high school administration windows in DRC INSIGHT as part of enrollment verification. School systems may only participate in one window. School systems that do not select a window in DRC INSIGHT will be placed in Window B as shown below. All makeup testing must be completed during the selected window.
 - Window A: November 30-December 17
 - Window B: January 5-24
- October 1-31: School systems will verify grade 3-8 enrollment and indicate their selection of paper-based or computer-based testing for grade 3 in the Enrollment function of DRC INSIGHT. There is no paper-based testing option for grade 4 in spring 2022. Paper tests will remain available in grades other than 3 as a unique accommodation that will require department approval.
- October 25: Window A (November 30-December 17) high school testing schedules due to assessment@la.gov.
- October 31: All testing accommodations are recorded on IEP, IAP or EL checklist for Window A (November 30-December 17)

ELPS/ELPT

- Students who may be newly identified as English learners should be screened as early as possible.
- As a result of Cambium's system rollover for the 2021-2022 administration, all students have been deleted from TIDE. Students who have been previously tested will have records in **Reporting**. To determine if data is available for a student, users should enter the student's LASID in the search box at the upper right-hand corner of the screen. One of two messages provides users with next steps.

- **"Student not active"** indicates that the student has data stored in the reporting system. To retrieve the data, enter the student's demographic information into TIDE, then search for the records in Reporting. Users will have access to all prior records for the student.
- **"TIDE does not have a student with ID #####"** indicates that the student has never been added to TIDE and has not participated in ELPS or ELPT. If documentation indicates that screening is the appropriate action, users will need to enter the student's demographic information into TIDE before administering the screener.

Please contact bridget.harris@la.gov for assistance or additional information.

NAEP

The National Center for Education Statistics (NCES) will proceed with administration of the mandated mathematics and reading assessments. For 2022, at the state level, the National Assessment of Educational Progress (NAEP) will be administered in mathematics and reading at grades 4 and 8. The NAEP 2022 school sample will represent the 2022 student population while also maximizing overlap with the NAEP 2021 school sample. Maximizing the overlapping school samples between NAEP 2022 and 2021 opens up the possibility of studying student performance, as measured by NAEP, within the unique context provided by the two NAEP studies that were administered in the 2020–2021 school year.

- The NAEP 2022 administration will include three assessment programs:
 - **January 10 to March 18, 2022:** National long-term trend mathematics and reading assessments: age 9
 - **January 24 to March 4, 2022:**
 - State-level mathematics and reading assessments: grades 4 and 8
 - National civics and U.S. history assessments: grade 8
- Superintendents of selected school systems will receive a letter through email in September.
 - School systems will play an important role by supporting participation.
 - NAEP will continue to adapt to new processes and procedures as the situation with COVID-19 continues to evolve.
 - As in previous years, NAEP representatives will provide significant support to schools by administering the assessment and bringing all necessary materials and equipment, including sanitized tablets, on which students take the assessment.
 - NAEP representatives' top priority is to protect the health and safety of students and school staff.

Acceleration Professional Development

The recent weather event has further disrupted the education of students throughout Louisiana. As school systems continue with instruction, they must address the unfinished learning their students experienced as a result of the pandemic, as well as Hurricane Ida. As part of our work to provide continuous guidance and support to our educators, we will continue to offer professional development to school systems as they work to address unfinished learning through acceleration.

All teachers have access to the 2021-2022 [Louisiana Acceleration Series](#) to support their efforts to accelerate learning. The [Louisiana Acceleration Series](#) includes 6 trainings that are designed to help educators target their instruction and coaching on the most effective strategies.

These trainings will be provided by the National Institute for Excellence in Teaching (NIET). All teachers, teacher leaders, school leaders, and district leaders are invited to attend these focused learning opportunities. Each training is a full day and the sessions will be offered virtually and in-person several times a week over the course of the 2021-2022 school year.

Educators may use this [link](#) to register for one or all of the first three sessions. Registration for the other sessions will open later this month.

Staffing and Scheduling Initiative

School systems may need to make staffing and scheduling adjustments to accommodate for the unfinished learning that resulted from Hurricane Ida school closures.

The Staffing and Scheduling initiative launched in March provides system and school leaders robust [guidance](#) and implementation support on developing strong staffing and scheduling models aligned to the best practices below. School schedules should look different in the 2021-2022 school year in order to address unfinished learning.

1. High-quality core instruction is the foundation.
2. Effective literacy instruction is central to student success.
3. Students with unfinished learning and diverse learners need extra instructional time to catch up.
4. Both core instruction and acceleration must be provided by content strong staff.
5. Meeting the social, emotional, and behavioral needs of students supports academic achievement.
6. Equity should be at the forefront of all these strategies.

To culminate the second round of [staffing and scheduling supports](#), system and school leaders are encouraged to attend the Staffing and Scheduling Q&A session on September 29, 2021 and October 6, 2021 at 1 p.m. Participants may register using this [link](#).

The final round in the series of [staffing and scheduling supports](#) will continue this fall. Participants must register to attend.

Equity, Inclusion, and Opportunities

Portfolio Opportunities

Enrollment in Non-Public Schools Not Seeking State Approval

Per R.S. 17:236, if a non-public school receives no local, state, or federal funds or support, directly or indirectly, instructional staff members shall meet requirements as may be prescribed by the school or church. Any such school shall operate a minimum session of not less than one hundred eighty days and shall report to the LDOE its total attendance as of the thirtieth day of the school's term or session.

For this reason, when a parent or guardian withdraws his or her child from a public school for the purpose of transferring him/her to a non-public school that does not wish to seek state approval, no documentation is provided to the parent or guardian. In the past, non-public schools *not seeking state approval* have been *permitted* to register with the LDOE, but were not required to do so. It is important to note that registration and documentation of such does not serve as approval, endorsement or certification of the educational program, the school's compliance with state laws (such as the definition of a school pursuant to R.S. 17:236) or the parent or guardians compliance with compulsory attendance laws (R.S. 17:221). Any non-public school not seeking state approval has ten days to provide notice of enrollment in the nonpublic school not seeking state approval to the school from which the student has withdrawn.

In summary, there is no documentation that a parent or legal guardian must provide in order to withdraw a child from school. However, as required by law, the LDOE will notify the local superintendent when a home study application has been received and when any subsequent action is taken on the application.

Assessments, Accountability, and Analytics

Request to Waive Accountability Reporting for 2020-2021

- The Louisiana Department of Education (LDOE) is seeking public comment on the state's proposed 2020-2021 school year accountability waiver from the Every Student Succeeds Act (ESSA).
 - Due to the disruptions caused by COVID-19, the United States Department of Education is allowing states flexibility to pause federal accountability for the 2020-2021 academic year. Consequently, LDOE is seeking a waiver because of the catastrophic interruptions to traditional education methods and strategies that have harmfully impacted academic outcomes and achievement, as evidenced by the spring 2021 results from the Louisiana Education Assessment Program (LEAP 2025).
 - As part of the waiver request, LDOE proposes to freeze the current ESSA designations assigned to struggling schools in 2019 for the 2020-2021 school year. For example, systems with schools that are currently identified as "Comprehensive Intervention Required" or "Urgent Intervention Required or Needed" would continue with these designations from the prior year. Furthermore, there would be no additional "Comprehensive Intervention Required" or "Urgent Intervention Required or Needed" labels assigned to schools in 2021-2022 based on the results from the 2020-2021 school year.
 - At this time, 46 states (including the District of Columbia) have received a waiver for accountability from the United States Department of Education.
- The deadline for public comment was September 14, 2021.
- Please send any comments to accountability@la.gov.
- For questions about the waiver, please contact jennifer.baird@la.gov.

KEA and K-3 Literacy Screening

- For school systems that have had closures due to the aftermath of Hurricane Ida, closed days do not have to be included in the first 30 day count. The department will work with affected school systems to determine if the reporting date of October 15 will need to be adjusted.
- KEA and K-3 screening in the fall will remain the same as in the prior year. The options are below:
 - KEA administration: DRDP-K or GOLD-KEA
 - K-3 literacy: Acadience Reading, DIBELS 8th, STEP, and STEEP
