

# LDOE Weekly Newsletter

**September 15, 2020**

Dear Colleagues,

Our thoughts and prayers are with families in Louisiana and across the region being impacted by Hurricane Sally. We began contacting system leaders located in Sally's path over the weekend and will remain in close contact throughout the assessment and any needed recovery. As I've shared previously, recovering from storm damage is made more challenging by the ongoing pandemic.

Systems across the state are beginning to transition to Phase 3 operations. While details on Phase 3 operations will vary from system to system, there are specific impacts to our reopening guidance and minimum health and safety standards. Those pertain to group size, bus capacity and requirements for band, vocal and music activities. We covered those elements in detail during Thursday's reopening office hours webinar. You can [view the slides](#) from that presentation on our website. Thursday's webinar also included information on the Louisiana Department of Health's (LDH) early warning system. LDH has since created a [training video](#) to help systems and schools get started in the reporting tool.

While we have been successfully operating schools in Phase 2, we must be thoughtful in the shift to Phase 3. I know our educators look forward to welcoming students back, but they also know this transition has to be done in a way that is mindful and maintains the progress Louisiana has made in pushing back this virus. I encourage you to be mindful in your transition. Don't feel as if the shift from Phase 2 to Phase 3 must happen overnight. Please continue to collaborate with your school families to ensure a successful transition. That open line of two-way communication is just as important now as it was when preparing for the first day of instruction.

Dr. Cade Brumley  
State Superintendent of Education

### ***Learning Environment and Connectivity Tool for Systems***

The Department has developed a tool for systems and schools to easily track student learning environments as well as device and connectivity data. This tool will also help the Department and systems identify where additional student connectivity supports are needed. System leaders received an email from LDOE with system specific access information needed to complete a brief survey.

School systems are encouraged to add current data as soon as possible. This will help ensure access to the system, as well as accuracy of the information, well before initial data is pulled for BESE on September 18.

Data submitted to this survey will automatically populate dashboards for systems, charter schools and nonpublic schools. A link to the dashboard will be added to the “School Reopening Resources” section of the [Strong Start](#) page in the coming weeks and will be communicated via the weekly newsletter. LDOE will pull data on September 18 at 5 p.m. to create an initial report for BESE and other stakeholders. Systems should update their dashboard throughout the school year as new information becomes available. The most current data will appear on the dashboard as soon as it is submitted through the survey.
