

# TEACHER LEADERS NEWSLETTER

## December 2023

My name is Amanda Ingargiola. I am the Master Teacher at Patrick Taylor Science and Technology Academy, an advanced studies school in Jefferson Parish. In this role, I am fortunate to be able to support teachers through feedback, coaching, and professional learning.

My true passion is teaching English, and I am grateful that I still have the opportunity to teach one section of eighth grade English I. Three years ago, I became a [Teacher Leader Advisor](#) for the Louisiana Department of Education; I currently work on the [Instructional Materials Review](#) (IMR) team for secondary ELA. While I have learned a lot during my twenty years in education, I have learned a great deal more in my role as a TLA. Learning the intricacies of the rubric and objectively evaluating materials

has enabled me to broaden my knowledge of high school content by gaining a clearer understanding of the longitudinal nature of the curriculum. The IMR rubrics require TLAs to be critical of all aspects of a curriculum, from activities to questions to assessments. Doing this work as a TLA has helped me to recognize the difference between *materials that advance student learning* as opposed to those that simply reinforce what has already been learned. For these reasons, my role as a TLA has made me a stronger classroom practitioner and Master Teacher.

Every educator understands the importance of our students having the *highest quality instructional materials* in the classroom and how these materials will *prepare our students for success throughout their educational journey*. As a Teacher Leader Advisor, I have met and worked with incredible educators and administrators across the state. I encourage you to consider [applying](#) to become a Teacher Leader Advisor today!
