# American Rescue Plan (ARP) Act

# American Rescue Plan (ARP) Act

- The American Rescue Plan (ARP) Act was passed by Congress and signed into law by President Biden on March 11, 2021.
  - \$1.9 trillion economic stimulus package
  - \$2.75 billion for the American Rescue Plan's Emergency Assistance to Non-Public Schools (ARP EANS) Program
  - Louisiana was awarded \$55 million through the American Rescue Plan Act for the EANS Program
  - The Program may be available to provide Non-Public Schools with services or assistance to address educational disruptions resulting from Covid-19.

# Federal Financial Assistance

- Under the EANS program, a Governor is the recipient of Federal financial assistance and is responsible for ensuring that the SEA administers the EANS program in accordance with applicable laws, including civil rights laws.
- A non-public school whose students and teachers receive services or assistance under the ARP EANS program is not a “recipient of Federal financial assistance.”
- As a result, certain Federal requirements that apply to a recipient of Federal financial assistance are not directly applicable to a non-public school whose students or teachers receive services or assistance under the program.

## Eligibility

# Eligibility

- For purposes of the ARP EANS program, a school is eligible if it:
  - Is an elementary or secondary school as defined by Section 8101(19) and (45) of the ESEA;
  - Is a non-profit;
  - Is accredited, licensed, or otherwise operates in accordance with State law NPS 19-20 Approval with Brumfield v. Dodd;
  - Was in existence prior to March 13, 2020, the date the President declared the national emergency due to COVID-19; and
  - Did not, and will not, apply for and receive a loan under the Small Business Administration's Paycheck Protection Program (PPP) (15 U.S.C. 636(a)(36)-(37)) that is made on or after December 27, 2020;

# Eligibility

- In addition to the aforementioned Eligibility requirements, under ARP EANS, LDOE may only serve non-public schools that 1) enroll a significant percentage of students from low-income families and 2) are most impacted by the COVID-19 emergency.
  1. A significant percentage of students from low-income families is defined by the LDOE as 22% or more of the total student enrollment.
  2. Most impacted by the COVID-19 emergency is defined by the LDOE, in accordance with Federal guidance, to include impacts such as:
    - Loss of instructional time
    - Loss of tuition revenue
    - Decrease in enrollment
    - Learning loss attributable to the educational disruptions caused by COVID-19
    - Social, emotional, or mental health impacts attributable to the disruption of instruction
    - Lack of capacity to provide remote learning due to insufficient technological support
    - Lack of resources to address safety measures

# Application and Allocation

# Application

The ARP EANS program application process requires **one application** to be submitted where the Program will evaluate both a school's 1) Eligibility and 2) Future Procurement Requests.

## 1. Eligibility

- This will result in a final population of eligible schools and final approved allocation amounts.

## 2. Future Procurement

- This will result in either approval or denial of requested future procurement of ARP EANS services and assistance.

# Allocation Formula Methodology

- A preliminary allocation amount for ARP EANS services and assistance has been calculated for schools where preliminary data indicates they had a percentage of students from low-income families greater than or equal to 22% for the 2019-2020 school year. This spreadsheet will be located on the at the [Federal Support and Grantee Relations Library](#).
- If your school is NOT on the spreadsheet, you may still apply for the Program; however, you will need to demonstrate that your school had a percentage of students from low-income families greater than or equal to 22% of the 2019-2020 school year and provide additional supporting information related to your number of students from low-income families enrolled in that year.

# Allocation Formula Methodology

The preliminary allocation formula methodology includes two components:

1. An allocation for total student enrollment; and
2. An allocation for enrolled students that are from low-income families

The preliminary total enrollment allocation per pupil is \$1,994 with an additional \$1,994 per each student from low-income families.

Allocation Formula (2019-2020 School Year):

$$\begin{aligned} & \text{Total Student Enrollment} \times \$1,994 \\ & + \text{Total Students from Low Income Families} \times \$1,994 \\ & = \text{Total Preliminary Allocation Amount} \end{aligned}$$

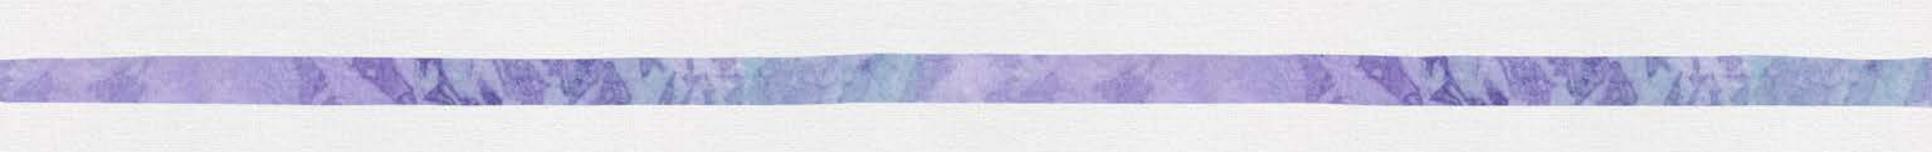

# Preliminary Allocation Development

- The preliminary allocation amount is an estimate since final data for one of the two data sets is not yet available.
- The two data sets utilized in the preliminary allocation calculation are:

<b>Total Student Enrollment</b>	<b>Total Students from Low Income Families</b>
For all schools, the Program will use the final student enrollment data supplied by eligible nonpublic schools for the 2019-20 school year within the Non-Public Schools Data Collection (NPS)	For schools that participated in the CRRSA EANS Program, the final low-income student count determined during the CRRSA EANS Eligibility Phase will be used.
	For schools that did not participate in the CRRSA EANS Program, the preliminary low-income student count data as reported to the public-school systems for participation in Equitable Services under the ESEA Title I Part A program will be used.

# Allocation Formula Methodology

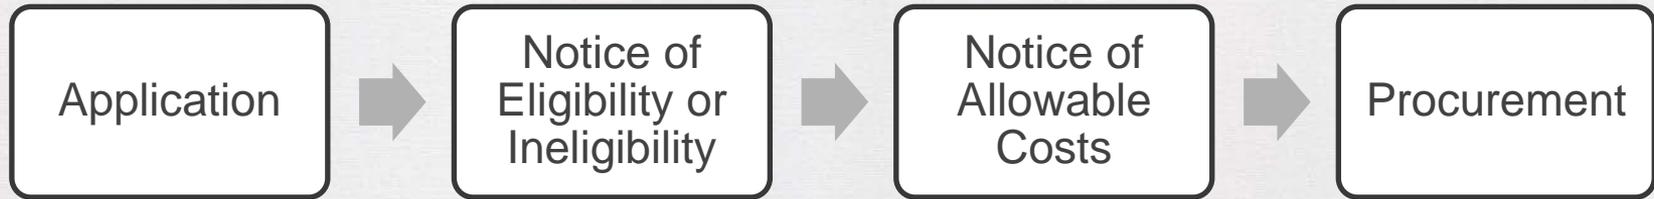

- The ARP EANS final allocation amounts will be determined after all applications have been submitted and reviewed for eligibility. Preliminary allocation amounts will be adjusted, upward or downward, as appropriate based on the total number of schools that apply and are deemed eligible, and the final low-income student data.
- Applications cannot be edited after submission. When filling out the ARP EANS application, schools are encouraged to request any and all services or assistance deemed necessary, even if they believe they would go over their preliminary allocation amount.

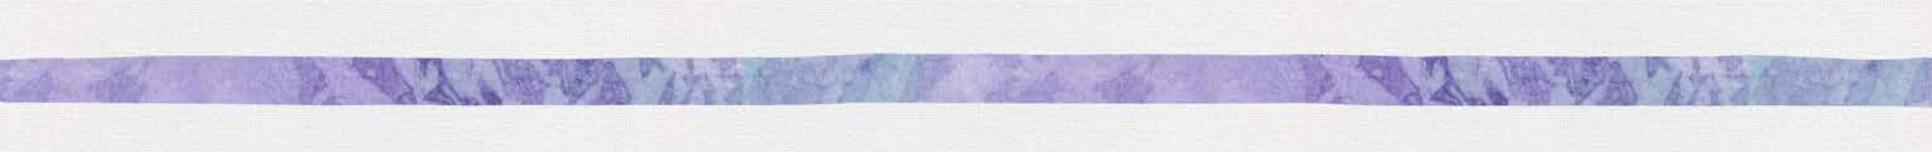

# Program Steps

## Steps in the Process

- Following the completion and submission of Applications, Eligible schools will receive a Notice of Eligibility and ineligible schools will receive a Notice of Ineligibility.
- Next, the Program will review all eligible schools' future procurement requests and issue a Notice of Allowable Costs outlining all approved future procurements requests.
- Finally, the LDOE will use the school's final allocation amount to fund the allowable future expenditures.

# **Application Accessibility and Resources**

# Access the Application

- Application and resource materials will be located on the [Federal Support and Grantee Relations Library](#).
- Locate the American Rescue Plan Emergency Assistance to Non-Public Schools (ARP EANS) Program section and look for resources labeled 'ARP EANS'
- Review the resource materials before and while filling out the application
- When you are ready to apply, click on the application link

## II. ACCESSING THE LDOE ARP EANS ELIGIBILITY APPLICATION

### A. How to Locate the LDOE ARP EANS Application

- A.1 Access the application at the [Federal Support and Grantee Relations Library](#) on the LDOE website

- The Application User Manual provides guidance on the online application portal for the LDOE ARP EANS Application.
- It includes instructions along with screen shots for reference when filling out the application.

# ARP EANS Future Procurement Catalog

- The Future Procurement Catalog provides the following:
  1. a list of commonly requested technology items and Technology Contract Vendors,
  2. a list of commonly requested non-technology goods, services and assistance,
  3. a list of State Contract Vendors and corresponding available categories of items, **and**
  4. a list of Non-Contract Vendors and corresponding available categories of items.
- The items listed in the Procurement Catalog may be requested in the Future Procurement section of your school's application. These items utilize the use of state contracts already in place, and therefore may result in **quicker procurement**, based on availability.
- However, the ARP EANS Program **does not require** a school to request the services and assistance listed within this catalog nor does the Program preclude a school from requesting any services or assistance they deem necessary.

## ARP EANS Program Frequently Asked Questions

### American Rescue Plan (ARP) Emergency Assistance for Non-Public Schools (EANS)

#### Frequently Asked Questions

##### 1. What is the ARP EANS Program?

The American Rescue Plan Emergency Assistance for Non-Public School Fund (ARP EANS) is a \$55 million allocation to the State of Louisiana through the federal American Rescue Plan Act, 2021 (ARP) passed by Congress and signed into law on March 11, 2021. The Program may be available to provide Non-Public Schools with services or assistance to address educational disruptions resulting from Covid-19.

##### 2. What are the program eligibility requirements?

A non-public school is eligible if it meets **all** of the following requirements:

- Is an elementary or secondary school as defined by Section 8101(19) and (45) of the [ESEA](#);
- Is a **non-profit**;
- Is accredited, licensed, or otherwise operates in accordance with State law NPS 19-20 Approval with [Brumfield v. Dodd](#);
- Was in existence prior to March 13, 2020, the date the President declared the national emergency due to [COVID-19](#);
- Did not, and will not, apply for and receive a loan under the Small Business Administration's Paycheck Protection Program (PPP) (15 U.S.C. 636(a)(36)-(37)) that is made on or after December 27, 2020;
- Enrolled a significant percentage of students from low-income families for the 2019-2020 school year, at a minimum, **22%**; **and**,
- Was most impacted by the COVID-19 emergency as outlined in the *Impact of COVID-19 Factors & Documentation Examples*

# ARP EANS Program Application Walkthrough

- The Program Application Walkthrough will be a recording of the upcoming Application Demonstration Webinar with step-by-step instructions and a live visual of filling out an application.

# ARP EANS Impact of Covid-19 Factors & Documentation Examples

- The Impact of Covid-19 Factors and Documentation Examples provides a list of the factors that will be considered when determining which nonpublic schools are most impacted by the Covid-19 emergency.
- Examples of the documentation that could demonstrate and support the impacts are also listed.

ARP EANS Impact of COVID-19 Factors & Documentation Examples

## American Rescue Plan (ARP) Emergency Assistance for Non-Public Schools (EANS) Impact of COVID-19 Factors & Documentation Examples

### Impact of COVID-19

Section 2002(a) of the American Rescue Plan [Act of 2021] requires the Louisiana Department of Education (LDOE) to [only] provide services or assistance to non-public schools that enroll a significant percentage of low-income students and are most impacted by the qualifying [COVID-19] emergency. The final requirements of the Act require a Governor, in his or her application for ARP EANS funds, to identify the factors demonstrating the impact of the COVID-19 emergency the State will use to determine which non-public schools are eligible to receive services or assistance. The following factors will be considered when determining which non-public schools are most impacted by the COVID-19 emergency:

- Loss of instructional time
- Social, emotional, or mental health impacts attributable to the disruption of instruction
- Loss of tuition revenue
- Decrease in enrollment
- Lack of capacity to provide remote learning due to insufficient technological support
- Learning loss attributable to the educational disruptions caused by COVID-19
- Lack of resources to address safety measures
- Other

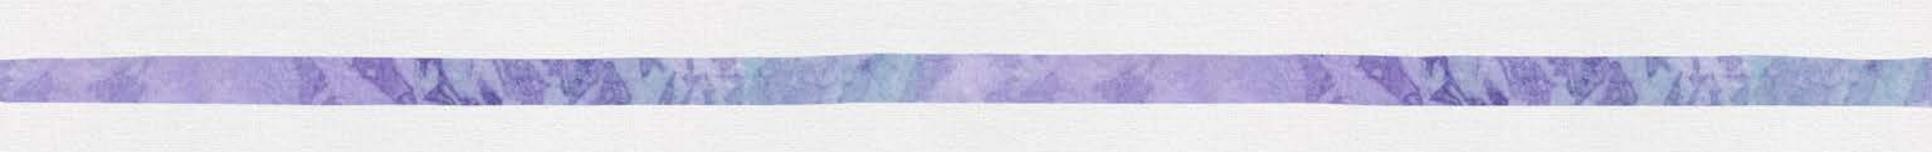

Please note, the Louisiana Department of Education, or its auditors, may request any reasonable information from a non-public school to describe and/or quantify the impact of COVID-19 on the non-public school. It is the responsibility of the school to maintain documentation demonstrating and supporting the impacts identified above.

Examples of Documentation Could Include:

# Applicant Portal

- It is the school's responsibility to regularly check the Applicant Portal for updates
- Please log into your account every two days to check on your application status and reply to any reviewer comments
- You may upload supporting documentation to your file as needed/requested
- Utilize the *ARP EANS Application User Manual* and *ARP EANS Application Walkthrough recording* located at the [Federal Support and Grantee Relations Library](#) for assistance.

*Tip: Make sure your contact information is up to date.*

# Allowable Future Expenditures

# What does “Future Expenditures” mean for the ARP EANS Program?

- Your school may receive services and/or assistance (not payment) through the LDOE procurement process for allowable expenses.
- The items requested under future expenditure must
  1. be requested for secular, neutral, and non-ideological costs,
  2. be used to address educational disruptions resulting from the COVID-19 emergency, **and**
  3. be reasonable, necessary, allocable, and allowable.
- LDOE will hold the title to the materials, equipment and/or property purchased with ARP EANS funds.
- Your school will be responsible for following LDOE’s procurement and inventory processes.
- A school may use these items through the end of the ARP EANS Program (September 30, 2024). Your school will need to work directly with LDOE if you wish to continue using these items beyond this date.

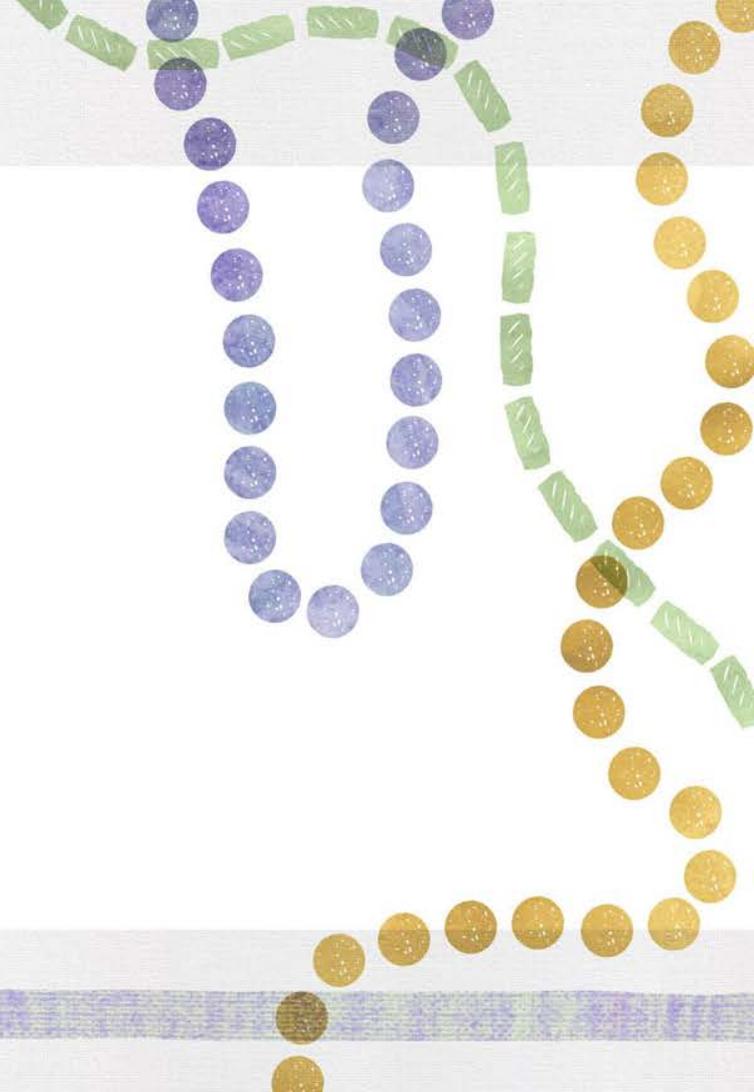

# Items Allowed as Future Expenditures

- Supplies to sanitize, disinfect, and clean school facilities
- Personal protective equipment (PPE)
- Improving ventilation systems, including windows or portable air purification systems
- Training and professional development for staff on sanitization, the use of PPE, and minimizing the spread of infectious diseases
- Physical barriers to facilitate social distancing
- Other materials, supplies, or equipment recommended by the CDC for reopening and operation of school facilities to effectively maintain health and safety
- Expanding capacity to administer coronavirus testing to effectively monitor and suppress the virus
- Educational technology (including hardware, software, connectivity, assistive technology, and adaptive equipment) to assist students, educators, and other staff with remote or hybrid learning
- Redeveloping instructional plans, including curriculum development, for remote or hybrid learning, or to address learning loss
- Leasing sites or spaces to ensure safe social distancing
- Reasonable transportation costs
- Initiating and maintaining education and support services or assistance for remote or hybrid learning or to address learning loss

# Items Not Allowed for Future Expenditure

- There are two expenses that are NOT allowable expenses in the ARP EANS Program as specifically outlined in the federal guidance:
  - Payroll expenses
  - Vendor expenses to perform cleaning services
    - A school may be provided future services for cleaning supplies but not for a vendor performing the cleaning
- For more information about examples of allowable future expenditures, see the *ARP EANS Future Procurement Catalog* on the [Federal Support and Grantee Relations Library](#).

# Procurement Process

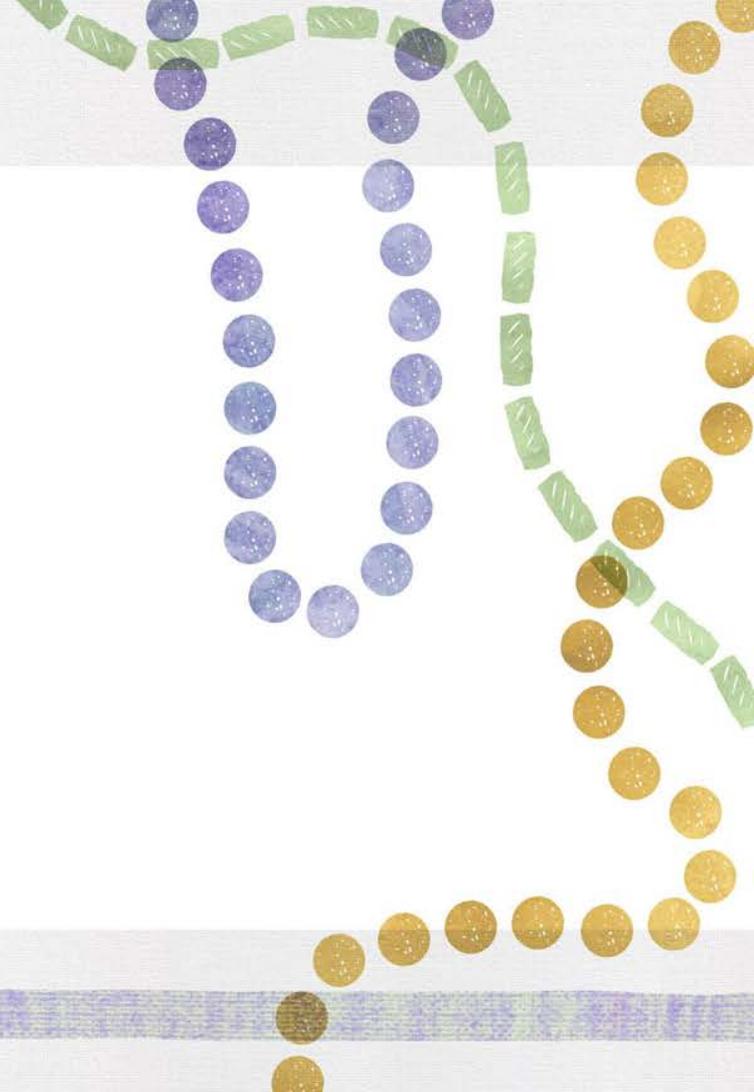

# Procurement Process

- The Program cannot guarantee that all items requested for future expenditure will be provided. Future expenditures requests will be reviewed based on the following:
  - If the item is allowable
  - If the final allocation amount is sufficient to cover the cost of your future expenditure requests
  - Based on available, previously-approved and contracted LDOE vendors

# Procurement Process

- Each school will designate a point of contact for the inventory handling and delivery of any potential future expenditure items. Once the school receives their future procurement items, the inventory point of contact will be responsible for notifying the Program of receipt of the items.
- Additionally, schools will be required to fill out an annual certification every year. The LDOE property liaison will be in contact with the school's designated point of contact regarding this annual certification.

# Common Questions

- **Where can I access the application?**
  - This application is available online at the [Federal Support and Grantee Relations Library](#). Resource materials to assist with the application process are available.
- **How do I log back into my application to either respond to my reviewer or upload documentation?**
  - Please visit the [Application User Manual](#) at the [Federal Support and Grantee Relations Library](#) for a walkthrough of these steps.
  - Feel free email [ARPinfo@LDOE-EANS.com](mailto:ARPinfo@LDOE-EANS.com) with questions.

- **Can I edit my application (e.g., switch the amounts, request additional services or assistance, etc.) after submission?**
  - No, applications cannot be edited after they have been submitted.
  - Please ensure you are including **ALL** items you wish to submit for future expenditures prior to submitting your application, even if you think the total amount would go over your school's preliminary allocation amount.
  - You may also log into the Applicant Portal to ask questions or respond to messages from your reviewer.

- **Are eligible non-public schools under the CRRSA EANS program (Round 1) the same schools that are eligible for services or assistance under the ARP EANS program (Round 2)?**
  - Not necessarily. In addition to the eligibility requirements outlined in CRRSA EANS, Section 2002(a) of the ARP Act requires that LDOE only provide services or assistance to an eligible non-public school that enrolls a significant percentage of students from low-income families (at a minimum, 22%) and was most impacted by COVID-19 emergency.
- **What is the definition of a low-income family?**
  - A low-income family is defined as a family whose household income does not exceed 185 percent of the 2020 Federal poverty level consistent with the final requirements.

- **My school is not listed on the preliminary allocation spreadsheet. Can I still apply for the Program?**

- If your school is NOT on the spreadsheet, you may still apply for the Program; however, you will need to demonstrate that your school had a percentage of students from low-income families greater than or equal to 22% of the 2019-2020 school year and provide additional supporting information for the number of students from low-income families enrolled in that year. If you believe that you are eligible and would like to calculate an estimated allocation amount, you may use the following formula using your self-identified low-income and total student population for the 2019-2020 school year:

Allocation Formula (2019-2020 School Year):

$$\begin{aligned} & \text{Total Student Enrollment} \times \$1,994 \\ & + \text{Total Students from Low Income Families} \times \$1,994 \\ & = \text{Total Preliminary Allocation Amount} \end{aligned}$$

- **Can I request reimbursement of services and assistance that were purchased by my school to address educational disruptions resulting from the COVID-19 emergency?**
  - No, under ARP EANS, an SEA may not use ARP EANS funds to provide reimbursements to any non-public school. Eligible schools may only receive future procurement services and assistance from LDOE or its contractors to address educational disruptions resulting from the COVID-19 emergency.
- **What documentation is required to be uploaded by my school during the application?**
  - Please refer to *ARP EANS FAQ #16* and *ARP EANS Program One Pager* at the [Federal Support and Grantee Relations Library](#) for a list of documentation and/or information that may be needed when filling out your ARP EANS Application.
  - Please note, schools that participated in the CRRSA EANS Program may not be required to provide all the documentation and/or information listed above.

- **Does my school need to submit formal quotes, current contracts, or solicit potential vendors when filling out the application?**
  - Vendor quotes for requested services and assistance are not a requirement of your completed application. However, providing vendor quotes may help LDOE in facilitating the procurement process for approved services or assistance.
  - Please view the *ARP EANS Procurement Catalog* and the *ARP EANS FAQ* located on the [Federal Support and Grantee Relations Library](#) for more details on the procurement process and quotes.

- **Are installation costs associated with requested future procurements allowable?**
  - Yes, the Program funds generally may only be used for the costs of installation of supplies or equipment that is otherwise allowable and not for installation of supplies or equipment that is not otherwise allowable.
- **Are installation costs of windows allowed if my school buys the windows?**
  - To the extent a non-public school uses its own funds to purchase new windows for the purpose of improving ventilation (e.g., replacing windows that do not open with ones that do), the LDOE may use ARP EANS funds for the installation of such windows.

- **Where can I see a list of LDOE vendors and a list of services or assistance that LDOE can provide?**
  - Please review the *ARP EANS – Future Procurement Catalog* at the [Federal Support and Grantee Relations Library](#) for a list of commonly requested good, services, and assistance as well as a listing of both state contract and non-state contract vendors to consider.
  - The ARP EANS Program **does not require** a school to request the services and assistance listed within this catalog nor does the Program preclude a school from requesting any services or assistance they deem necessary. However, the items in the Catalog utilize the use of state contracts already in place, and therefore may result in quicker procurement, based on availability.

- **When requesting non-software future procurement requests, how do I enter in the quantity and units?**
  - Please specify the total number of items that are being requested. See below for some examples of different ways to enter in the quantity and units of a requested item.

<b>Item</b>	<b>Ways of entering 'Quantity'</b>
Latex Gloves	3 boxes of 50 gloves
Latex Gloves	150 gloves
Hand Sanitizer	2 packs of 3 bottles
Hand Sanitizer	6 16oz bottles

- **Can my school purchase the items paid for and/or provided by LDOE in order to retain them after September 30, 2024?**
  - No, the LDOE cannot sell or transfer any items to the non-public schools. Equipment and supplies purchased through the Program may be used for the authorized purposes of the ARP EANS program through September 30, 2024, or until the equipment and supplies are no longer needed for the purposes of the ARP EANS program.
  - If a school still requires the items after September 30, 2024, the school may be required to provide a justification showing that the ARP EANS services and assistance are still needed for other allowable purposes under another federal education program, such as the ESEA or the Individuals with Disabilities Education Act (IDEA). In that case, the LDOE will retain title to, and maintain administrative control over, the equipment and supplies or transfer title and control to another public agency such as an LEA providing equitable services and assistance under another federal education program.
  - If your school has no justification to provide because the item is not required for other allowable purposes under another federal education program, the item will revert back to the state and be entered into Surplus. The items will go to the Louisiana Property Assistance Agency (LPAA) to be auctioned. If your school is interested in purchasing the items through auction, LPAA and LDOE can work with the school to list the school as a priority vendor for the items.
