# Welcome

## Goal:

1. Grow the local leadership pipeline for schools and districts by developing talented teachers within the system
2. Create a cadre of talented educators who have the knowledge and skills to mentor and support other teachers within their schools and districts

# Curriculum, Assessment & PD

There is a growing amount of research suggesting that teachers are most effective when they have access to:

- a [high-quality curriculum](#),
- ongoing [professional development](#) that helps them use that curriculum effectively, and
- data from a limited number of [standards-aligned non-summative assessments](#) which measure how well students are meeting the outcomes of the high-quality curriculum.

The most effective districts create a cohesive system of these three elements.

# Our ELA Goal

Ensure that all of our students can read, understand, and express their understanding of complex, grade-level texts, ensuring their readiness for college or a career.
