

## OVERVIEW

The Educator Workforce Snapshot provides an overview of workforce data for the 294 traditional public schools in Louisiana's Southwest Region from the 2021-2022 school year based on End-of-Year (EOY) data\*. The purpose of this snapshot is to communicate annual workforce data and trends to stakeholders and to support decision making for statewide improvements regarding recruitment and retention. In this snapshot, "teacher" is defined as any teacher of certified courses, and "school leaders" are educators serving as principals or assistant principals in Louisiana public schools.

\*Previous annual workforce snapshots used October 1 reporting data.

## CERTIFICATION

These data reflect teacher certification for core classes in Louisiana public schools. Teachers are certified when they hold a valid teaching certificate; if a certified teacher teaches a course that is outside of their certification area, they are considered as teaching out-of-field (OOF). A teacher could teach both certified and out-of-field courses. Teachers without a valid certification, or with a certificate that has expired, are considered uncertified.

\*A school may receive no letter grade if it is a turnaround school, a new/reconfigured school, has been significantly impacted or has received a one-year waiver for "severe impact" due to disaster. Schools earn a "T" for the first two years if they are a turnaround school that was labeled "F" when the school changed ([Bulletin 111](#)).

## RECRUITING AND HIRING

These data indicate the entire newly hired teacher population which includes all new and returning teachers as well as the teacher preparation program pathway from which first-year (newly certified) teachers were hired in all Louisiana traditional public schools. Louisiana's new teacher pathways are divided into undergraduate and post-baccalaureate programs. Subsets of those newly hired teachers are disaggregated below.

## EDUCATOR WORKFORCE REPORT METHODOLOGY

All charter schools were excluded from the data in the tables with reference to certification status. All other tables include data for all schools in the state where information was applicable.

### WHO IS INCLUDED IN THIS REPORT?

Workforce data includes any data that is required to be submitted by Louisiana public schools (both traditional and charter schools). Charter schools do not have the same certification requirements as traditional public schools, so charter schools are excluded from certification tables but included in everything else.

- **Demographics:** both traditional and charter schools
- **Certification:** *only traditional schools*
- **Recruiting and Hiring:** both traditional and charter schools
- **Evaluating Results:** both traditional and charter schools
- **Compensation:** both traditional and charter schools
- **Retention:** both traditional and charter schools

This report includes data on teachers and leaders employed in the 2021-2022 school year.

- Includes all Louisiana public schools who had teachers reported in EdLink 360.
- *Teachers* include any employee with object code 112 in EdLink 360's Staff extract.
- *School Leaders* include Principals with object code 111, function codes 2410 and 2430, and Assistant Principals with object code 111, function code 2420.

### WHAT DATA ARE USED IN THIS REPORT?

Data for the Educator Workforce Report is pulled from the following sources:

- EdLink 360
  - > Staff
  - > Students
  - > Courses
  - > Workforce Appendix Table
- Teacher Certificate Management System (TCMS)
- VAM report
- 2021 Schools in Need of Intervention List
- Special Education Reporting (SER) System

SPED classes taught by appropriately certified teachers are identified as those with SE course type code (excluding gifted and talented courses), as reported in EdLink 360. Teachers are considered appropriately certified if they hold at least one special education certification and the content area certification for the course being taught (if the course requires a content-specific certification). Required certification areas are listed for each course in EdLink 360 and courses being taught by teachers.

## CERTIFICATION

- **Certification Status:** Each teacher will be in one of the three categories - Certified (appropriately certified), out-of-field (certified but does not hold proper certification area for at least one course being taught), or uncertified (does not hold any valid certificate).
- **Teacher Certification by Subject Area:** Out-of-field teachers were identified based on the certification area(s) for the courses being taught according to the Curriculum Database (CUR) cross-referenced with all certification area(s) held by the teacher according to Teacher Certification Management System (TCMS). Teachers may be certified and still classified as out-of-field if they teach any course that requires a certification different from what they hold; therefore, teachers may count as both certified and out-of-field.

## TEACHERS HIRED

- **Newly hired teachers:** A teacher who was hired previously, left a Louisiana traditional public school system, and was hired again in 2021 is counted as a new hire. These teachers were not employed the previous year by Louisiana public schools.
- **Teachers Hired on a Practitioner's License:** Teachers who were hired in the state in 2021-2022 and held a practitioner's license (PL1, PL2, or PL3) at the time of hire.

- **Undergraduate:** Teachers hired in 2021-2022 by the state who completed a teacher preparation program at the undergraduate level.
- **Post-Baccalaureate:** Teachers who were hired in 2021-2022 by the state who completed a teacher preparation program at a post-baccalaureate level.

## EVALUATING RESULTS

- Teachers and school leaders who received value-added model (VAM) results for more than one subject area are counted for each subject area for which they received VAM results.

## COMPENSATION

- Salary is determined at the system level. Teacher and school leader salaries include all public school teachers and leaders, including charter schools.

## RETENTION

- **Number of Departing Teachers and School Leaders:** Teachers and School Leaders departing from the state include teachers who were employed in a school system in the state as reported in PEP in one year but were no longer employed in a school system in the state as reported in PEP during the first reporting period of the following year.
- **Average Number of Years of Experience of Departing Teachers:** Years of experience is calculated based upon the number of years the teacher appeared in PEP. PEP data began in 1993.

## DEFINITIONS

- **Comprehensive Intervention Required (CIR):** An overall performance of "D" or "F" for three years (or two years for new schools) and/or graduation rate less than 67% in most recent year.
- **Count of Teachers:** This data represents the headcount of teachers, object code 112, as reported in PEP. Each teacher is counted once, regardless if he/she works at more than one site. Teachers reported as post-secondary, contractual, or third party were excluded from this report.
- **Economically Disadvantaged Students (EDS):** Students eligible for Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families, Medicaid, awaiting foster care, migrant, and incarcerated children. Includes only students attending Title I schools.
- **Grade Band:** Certifications are grouped by grade levels.
- **Non-Economically Disadvantaged Students:** Students NOT eligible for Supplemental Nutrition Assistance Program, Temporary Assistance for Needy Families, Medicaid, awaiting foster care, migrant, and incarcerated children. This includes only students NOT attending Title I schools.
- **Out-of-field Teachers:** Teachers who hold one of the following valid certificates: Professional Level 1, 2, 3; Type C, B, or A; Out-of-State; Foreign Language Elementary Special Certificate; Practitioner 1, 2, or 3 license; World Language Certificate; Extended Endorsement License; or a standard certificate for teachers in nonpublic schools, but who do not hold the certification area for their teaching assignment in at least one class (e.g., a teacher certified in Elementary who is teaching secondary Science).
- **Practitioner's License (PL):** a standard teaching certificate issued to teacher candidates enrolled in BESE-approved teacher preparation programs at the request of the program provider; the practitioner's license certifies the teacher candidate to teach students the content aligned with the certification program area within a Louisiana school system as the Teacher of Record.
- **School Leader:** Principal or assistant principal.
- **Student of Color:** Student who is a member of a minority race or ethnicity (American Indian or Alaskan, Asian, Black or African American, Hispanic/Latino).
- **Students Who are English Learners (EL):** Individuals who do not speak English as their primary language and have a limited ability to read, speak, write, or understand English can be considered English Learners (ELs).

- **Students with Disabilities (SWD):** This term specifically refers to those diverse learners who have been identified as children (all ages) or students (school-aged) with disabilities as defined by Individuals with Disabilities Education Act (IDEA) and Americans with Disabilities Act (ADA) and designated in the Special Education Reporting system (SER).
- **Teacher of Color:** Teacher who is a member of a minority race or ethnicity (American Indian or Alaskan, Asian, Black or African American, Hispanic/Latino).
- **Turnaround School:** Per Bulletin 111, A turnaround school is a school in which a turnaround provider assumes operation over the entire school, continuing to offer the same or additional grade levels as the previous school and enrolling all former students who choose to continue attending the school.
- **Uncertified Teachers:** Teachers who do not hold a certificate as described above, including those who hold a Temporary Authority to Teach (TA, T1, T2, or T3), a Temporary Employment Permit (TEP, TEP2, TEP3), or teachers who do not hold any certificate.
- **Value Added Model (VAM):** The value-added model (VAM) measures students' success compared to similar peers year to year. Value-added is a statistical model that uses student characteristics to determine anticipated student performance in the current year. The VAM anticipates how well students will perform on state assessments in comparison to their peers with similar prior test scores and background. Once a student has taken state assessments, the model shows the extent to which his or her achievement was on target with what was expected (student expected score). The difference between a student's actual achievement and his or her expected achievement is known as the "value added."
