The 1986-87 State amount takes into consideration the MFP Support Program that includes ad-valorem and other local sources which reduce the actual funds distributed. Previous years figures represent total cost of Special Education Program. The 1986-87 total estimated cost of Special Education Program was \$171,985,691.

Fiscal year 1987-88 includes an amount of \$16,705,620 for Teachers' Retirement. This cost of Special Education was omitted in the state expenditures reported in the annual reports for fiscal years prior to 1988.

State and School District Reports

GENERAL EXPLANATION

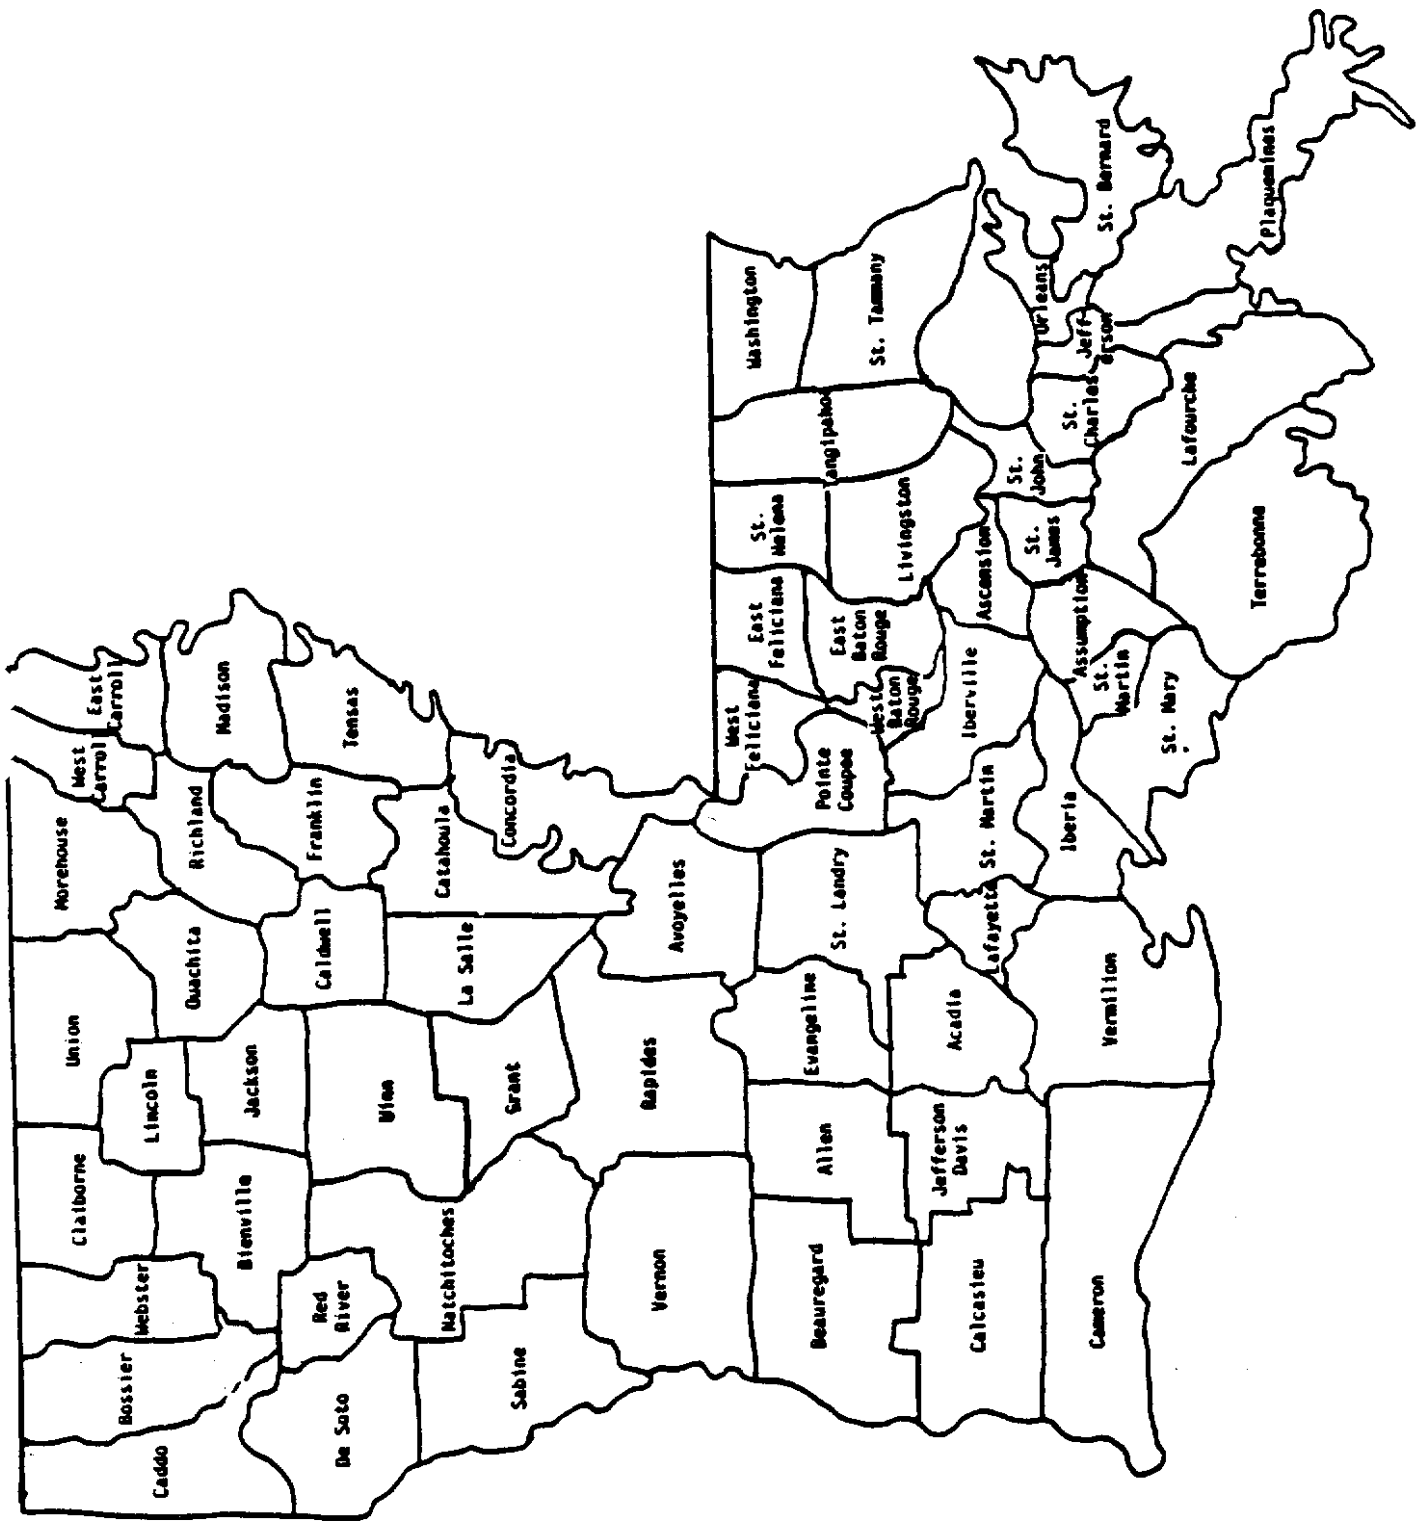

Data gathered from the 66 parish/city systems are presented in district profiles. The Louisiana **STATE SUMMARY PROFILE**, preceding the individual district profiles, includes the same data aggregated to the state level in addition to the two East Baton Rouge Lab Schools.

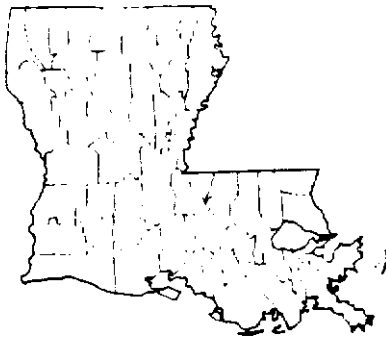

Also, please note that percentages for several items are computer generated. Because of rounding, the sum of the percentages for some of these items may equal 99.9 or 100.1, rather than 100.0. **Footnotes throughout the profiles are referenced as A through Q.** Rather than repeating each footnote, the footnotes are presented in this general explanation:

- A** Student registration reflects the count of students on the first day of the school year. Figures reported include pre-kindergarten.
- B, E** The Bureau of School Accountability thanks Mr. Larry Goux of the Board of Regents' staff for supplying the projection data on school registration for 1991-95. Please note: there are no projection figures for Monroe and Bogalusa; these figures are included in the parish figures for Ouachita and Washington Parishes. The state projections do not include the EBR Lab Schools.
- C** The total public school registration figure in the state and parish profiles for 1991-92 includes no postgraduate students.
- D** The Department depends on the voluntary reporting of nonpublic student registration by the nonpublic schools in the districts. In some cases, nonpublic schools may not report data as requested, resulting in an undercount of nonpublic students.
- E** See B above.
- F** These totals include special education students but do not include post-graduate students.
- G** The Department depends on the voluntary reporting of nonpublic school graduates from nonpublic schools in the districts. In some cases, nonpublic schools may not report data, resulting in an undercount of nonpublic graduates.
- H** Other professional/technical personnel includes part-time teachers; teacher aides; speech/hearing therapists, special education therapists; curriculum, resource, and instructional specialists; guidance counselors; media specialists; physicians, nurses, dentists, hygienists, health services personnel; personnel specialists; social workers, psychologists, community service workers; research/evaluation/testing specialists; data processing analysts, programmers, finance/accounting analysts; consultants, engineers, visiting teachers and all others.

GENERAL EXPLANATION (cont.)

- I** Support staff includes office/clerical personnel: secretary - School Board, school secretaries, office assistants, bookkeepers, library aides; crafts/trade and laborers: electricians, carpenters, plumbers, janitors, general maintenance; service workers: school lunch managers and workers, mechanics, school bus drivers, school transportation attendants, school crossing patrolmen and all others.
- J** The Department depends on the voluntary reporting of nonpublic school data by the nonpublic schools in the districts. In some cases, nonpublic schools may not report data, resulting in an undercount in the number of nonpublic schools. All nonpublic special education schools are included in this total; however, vocational and alternative schools are not.
- K** Actual dollar figures are reported by each local school district (Part II-A, Financial Statements, Annual Statistical Report) to the Office of Research and Development.
- L** The amounts indicated in the bonded indebtedness section are taken directly from the districts' financial statements. These statements are not derived from audited figures. Debt service amounts may be indicated as bonded debt in some instances.
- M** In Item 17, the districts were ranked in descending order (i.e. from the highest to the lowest) on all categories except one: the ratio of public students to teachers where the ranking was reversed.
- N** Current expenditures include only instruction and support services and does not include adult education expenses.
- O** This percentage is based on the number of public high school graduates from the previous year who went on to public four year institutions, private four year institutions, or junior colleges.
- P** These figures are based on the data submitted for the Minimum Foundation Program.
- Q** This ratio includes principals and assistant principals as part of the administration.
